

Karl Erik Lund

# **A tobacco-free society or tobacco harm reduction?**

**Which objective is best for  
the remaining smokers in Scandinavia?**

The Norwegian Institute for Alcohol and Drug Research (SIRUS) was established on 1 January 2001 by the amalgamation of the National Institute for Alcohol and Drug Research (SIFA) and the Documentation Section and library of the Norwegian Directorate for the Prevention of Alcohol and Drug Problems. The aim of SIRUS is to carry out research and to disseminate information related to alcohol and drug issues, with a special emphasis on social science issues. The Institute is also the contact organization for the European Monitoring Centre for Drugs and Drug Addiction in Lisbon, EMCDDA.
