Arthrex, Incorporated Mr. David Rogers Regulatory Affairs 1370 Creekside Boulevard Naples, Florida 34108-1945

Re: K151342

Trade/Device Name: Arthrex SwiveLock Anchors

Regulation Number: 21 CFR 888.3030

Regulation Name: Single/multiple component metallic bone fixation appliances and

accessories

Regulatory Class: Class II Product Code: MAI, MBI Dated: February 19, 2016 Received: February 23, 2016

Dear Mr. Rogers:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the <u>Federal Register</u>.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Parts 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set

forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Division of Industry and Consumer Education at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address

http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to

http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Industry and Consumer Education at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address

http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,

Mark N. Melkerson -S

Indications for Use

Form Approved: OMB No. 0910-0120 Expiration Date: January 31, 2017 See PRA Statement below.

510(k) Number (if known)		
K151342		
Device Name		
Arthrex SwiveLock Anchors		
Indications for Use (Describe)		

The Arthrex SwiveLock anchors are intended for fixation of suture (soft tissue) to bone in the shoulder, foot/ankle, knee, hand/wrist, elbow, and hip in the following procedures:

- Shoulder: Rotator Cuff Repair, Bankart Repair, SLAP Lesion Repair, Biceps Tenodesis, Acromio-Clavicular Separation Repair, Deltoid Repair, Capsular Shift or Capsulolabral Reconstruction.
- Foot/Ankle: Lateral Stabilization, Medial Stabilization, Achilles Tendon Repair, Hallux Valgus Reconstruction, Midfoot Reconstruction, Metatarsal Ligament Repair/Tendon Repair and Bunionectomy.
- Knee: Medial Collateral Ligament Repair, Lateral Collateral Ligament Repair, Patellar Tendon Repair, Posterior Oblique Ligament Repair, and Illiotibial Band Tenodesis. Secondary fixation for ACL/PCL reconstruction or repair (4.75) - 5.5 SwiveLock only).
- Hand/Wrist: Scapholunate Ligament Reconstruction, Ulnar or Radial Collateral Ligament Reconstruction.
- Elbow: Biceps Tendon Reattachment, Tennis Elbow Repair, Ulnar or Radial Collateral Ligament Reconstruction, Lateral Epicondylitis repair.
- · Hip: Capsular repair, acetabular labral repair

Type of Use (Select one or both, as applicable)	
Prescription Use (Part 21 CFR 801 Subpart D)	Over-The-Counter Use (21 CFR 801 Subpart C)

CONTINUE ON A SEPARATE PAGE IF NEEDED.

Trade Name	Arthrex SwiveLock Anchors
Common Name	Suture Anchor
Product Code,	MAI, MBI
Classification Name, CFR	21 CFR 888.3030: Single/multiple component metallic bone fixation appliances
	and accessories
Predicate Device	K101823: Arthrex SwiveLock Anchors
	K071176: Arthrex Bio Interference Screws
Purpose of Submission	This traditional 510(k) premarket notification is submitted to include an additiona
	indication for secondary fixation in ACL/PCL reconstruction or repair for the
	Arthrex SwiveLock Anchors (4.75 – 5.5 sizes).
Device Description	The Arthrex SwiveLock Anchor is a two-component, knotless suture anchor
	comprised of an eyelet and a hollow anchor body. The SwiveLock Anchor is pre-
	mounted on a driver with the anchor body and eyelet physically separated on the
	driver shaft. FiberWire suture may also be provided with the device.
Intended Use	
	The Arthrex SwiveLock anchors are intended for fixation of suture (soft tissue) to
	bone in the shoulder, foot/ankle, knee, hand/wrist, elbow, and hip in the
	following procedures:
	Shoulder: Rotator Cuff Repair, Bankart Repair, SLAP Lesion Repair,
	Biceps Tenodesis, Acromio-Clavicular Separation Repair, Deltoid Repair,
	Capsular Shift or Capsulolabral Reconstruction.
	Foot/Ankle: Lateral Stabilization, Medial Stabilization, Achilles Tendon
	Repair, Hallux Valgus Reconstruction, Mid-foot Reconstruction,
	Metatarsal Ligament Repair/Tendon Repair and Bunionectomy.
	Knee: Medial Collateral Ligament Repair, Lateral Collateral Ligament
	Repair, Patellar Tendon Repair, Posterior Oblique Ligament Repair, and
	Illiotibial Band Tenodesis. Secondary fixation for ACL/PCL reconstruction
	or repair (4.75 – 5.5 SwiveLock only).
	 Hand/Wrist: Scapholunate Ligament Reconstruction, Ulnar or Radial Collateral Ligament Reconstruction.
