Re: K030908

Trade/Device Name: DeRoyal Surgical Drapes BackTable Cover
Regulation Number: 878.4370
Regulation Name: Surgical Drapes
Regulatory Class: II
Product Code: KKK
Dated: June 24, 2003
Received: June 25, 2003

Dear Ms. Daniels:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Page 2 – Ms. Daniels

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050. This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4618. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/dsma/dsmamain.html>

Sincerely yours,

A handwritten signature in black ink that reads "Susan Runner". The signature is written in a cursive style with a large, prominent "S" and "R".

Center for Devices and
Radiological Health

Enclosure

Indications for Use Statement

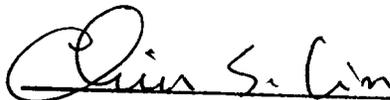

510(k): K030908

Device Name: DeRoyal Back Table Cover (surgical drape)

Intended Use: DeRoyal Back Table Covers are intended to provide a sterile surface for a surgical operating room back table that becomes part of the sterile field. DeRoyal's Back Table Covers will provide protection against contamination during surgical procedures.

DeRoyal will receive the nonsterile back table covers from a converter made to DeRoyal's specifications. DeRoyal will use them to wrap convenience kits that will be sterilized in a header pouch. When the convenience kit is removed out of the header pouch it will be used as a surgical drape for the surgical operating room back table.

DeRoyal will market nonsterile sterilization wrap to other OEM customers.
