Cementek®  
510(k) Summary  
May 28, 2004

**Submitter:** Teknimed, S.A.  
11 rue Apollo  
31240 L'Union  
FRANCE

**Contact person:** J.D. Webb  
1001 Oakwood Blvd  
Round Rock, TX 78681  
512-388-0199

**Trade Name:** Cementek®

**Common name:** Bone void filler

**Classification name:** Class II per 21 CFR section 888.3045

**Product Code:** MQV

**Equivalent Device:** Cem-Ostetic™ (Berkley Advanced Biomaterials - K022622)  
 $\alpha$ -BSM (DePuy - K011048).

**Device Description**

As a malleable bone substitute, Cementek® is packaged as a solid phase and a liquid phase. The liquid and solid phases are mixed in the operating room, then introduced as a paste into the osseous cavity and allowed to set. This reaction is an athermic reaction resulting in a apatitic calcium phosphate cement. Cementek is marketed in two different dosages; Cementek® 20 produces 8cc of paste and Cementek® 40 produces 16cc.

**Intended Use**

Cementek® is intended for use only as a bone void filler for voids or gaps that are not intrinsic to the stability of the bony structure. Cementek® is indicated for use in the treatment of surgically created osseous defects or osseous defects created from traumatic injury to bone. The putty can be molded to specific shapes and placed into the bony voids or gaps in the skeletal system (i.e. extremities, spine, and pelvis). Following placement in the bony voids or gap, the calcium phosphate scaffold resorbs and is replaced with bone during the healing process.

**Summary of Technological Characteristics Compared to Predicate Device**

Cementek® is equivalent to  $\alpha$ -BSM and Cem-Ostetic™ in terms of physical form, how supplied, compressive strength, porosity, average pore size, composition of final product and indications. In an animal model is performed similar to  $\alpha$ -BSM.

Re: K041493  
Trade Name: Cementek  
Regulation Number: 21 CFR 888.3045  
Regulation Name: Resorbable calcium salt bone void filler device  
Regulatory Class: Class II  
Product Code: MQV  
Dated: May 28, 2004  
Received: June 4, 2004

Dear Mr. Webb:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

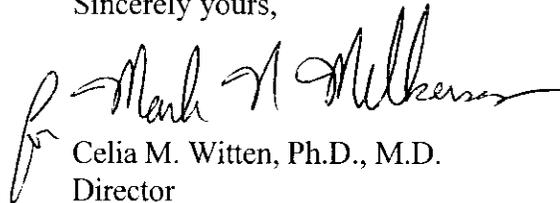

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if

applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4659. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/dsma/dsmamain.html>

Sincerely yours,
