Dear Dr. Haley:

Please refer to your supplemental new drug application dated June 9, 2006, received June 12, 2006, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for Dostinex[®] (cabergoline) 0.5 mg tablets.

This "Changes Being Effected" supplemental new drug application proposes to add statements to labeling regarding fibrosis and valvulopathy to the PRECAUTIONS and ADVERSE EVENTS sections and to add a statement to PATIENT INFORMATION that directs the patient to notify her physician if she develops dyspnea or cough.

We have completed our review of this application, as amended, and it is approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

The final printed labeling (FPL) must be identical to the enclosed labeling (text for the package insert) as submitted on June 9, 2006.

Please submit an electronic version of the FPL according to the guidance for industry titled *Providing Regulatory Submissions in Electronic Format - NDA*. Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Individually mount 15 of the copies on heavy-weight paper or similar material. For administrative purposes, designate this submission "**FPL for approved supplement NDA 20-664/S-008**". Approval of this submission by FDA is not required before the labeling is used.

In addition, submit three copies of the introductory promotional materials that you propose to use for this product. Submit all proposed materials in draft or mock-up form, not final print. Send one copy to the Division of Reproductive and Urologic Products and two copies of both the promotional materials and the package insert directly to:
