Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated April 22, 2005, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Tretinoin Capsules, 10 mg.

Reference is also made to your amendments dated October 21, 2005, October 31, 2005, March 21, 2006, April 13, 2006, July 19, 2006, December 5, 2006, February 26, 2007, April 16, 2007, May 1, 2007, and May 22, 2007.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly the ANDA is approved. The Division of Bioequivalence has determined your Tretinoin Capsules, 10 mg to be bioequivalent and, therefore, therapeutically equivalent to the reference listed drug, Vesanoid (Tretinoin), Oral Capsules, 10 mg, of Roche Laboratories, Inc. Your dissolution testing should be incorporated into the stability and quality control program using the same method proposed in your application.

Under section 506A of the Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

Postmarketing reporting requirements for this ANDA are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Promotional materials may be submitted to FDA for comment prior to publication or dissemination. Please note that these submissions are voluntary. If you desire comments on proposed launch promotional materials with respect to compliance with applicable regulatory requirements, we recommend you submit, in draft or mock-up form, two copies of both the promotional materials and package insert(s) directly to:
