

ANDA 78-317

Apotex Corp.
Attention: Kiran Krishnan
Project Leader, Regulatory Affairs
U.S. Agent for: Apotex Inc.
2400 N. Commerce Parkway, Suite 400
Weston, FL 33326

Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated July 7, 2006, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Cetirizine Hydrochloride Tablets(OTC), 5 mg and 10 mg.

Reference is also made to your amendments dated October 31, 2006, and November 23, November 29, December 4, December 19, December 20, and December 21, 2007.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted over-the-counter (OTC) labeling. Accordingly the ANDA is approved, effective on the date of this letter. The Division of Bioequivalence has determined your Cetirizine Hydrochloride Tablets, 5 mg and 10 mg, to be bioequivalent to the reference listed drug, Zyrtec Allergy Tablets, 5 mg and 10 mg, and Zyrtec Hives Relief Tablets, 5 mg and 10 mg, of Pfizer Pharmaceuticals Inc. Your dissolution testing should be incorporated into the stability and quality control program using the same method proposed in your application.

Under section 506A of the Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

Postmarketing reporting requirements for this ANDA are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Sincerely yours,

{See appended electronic signature page}

Gary Buehler
Director
Office of Generic Drugs
Center for Drug Evaluation and Research
