SUPPLEMENT APPROVAL

Novartis Pharmaceuticals Corporation
Attention: Bob Monaghan
Global Director, Regulatory Affairs
One Health Plaza
East Hanover, NJ 07936-1080,

Dear Mr. Monaghan:

Please refer to your supplemental new drug application (sNDA) dated March 31, 2010, received March 31, 2010, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act, for Famvir (famciclovir) Tablets 125 mg, 250 mg, and 500 mg.

We acknowledge receipt of your amendments dated:

September 10, 2010, October 18, 2010, November 23, 2010, January 21, 2011, January 26, 2011

This Prior Approval supplemental new drug application proposes changes to the Use in Specific Populations, Clinical Pharmacology, and Clinical Studies sections of the package insert to add new information from a study which evaluated the safety and efficacy of Famvir in treating recurrent genital herpes in immunocompetent Black/African American subjects.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text and with the minor editorial revisions indicated in the enclosed labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical to the enclosed labeling (text for the package insert, text for the patient package insert, Medication Guide) and include the labeling changes proposed in any pending "Changes Being Effected" (CBE) supplements and any annual reportable changes not included in the enclosed labeling. Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling

[21 CFR 314.50(l)(1)(i)] in MS Word format that includes the changes approved in this supplemental application.

PREA

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

To do so, submit the following, in triplicate, (1) a cover letter requesting advisory comments, (2) the proposed materials in draft or mock-up form with annotated references, and (3) the package insert(s) to:

Division of Drug Marketing, Advertising, and Communications
5901-B Ammendale Road
