

ANDA 091593

Byron Chemical Co. Inc.  
U.S. Agent for: Cipla Limited  
Attention: Nicholas Cola  
40/11 23rd Street  
Long Island, NY 11101

Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated May 10, 2009 and accepted for filing on October 21, 2009, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Efavirenz, Emtricitabine and Tenofovir Disoproxil Fumarate Tablets, 600 mg/200 mg/300 mg.

This ANDA was reviewed under the expedited review provisions of the President's Emergency Plan for AIDS Relief (PEPFAR).

Reference is also made to your amendments dated March 4, March 25, August 16, and November 30, 2010; and February 8, April 7, April 26, and September 22, 2011.

We have completed the review of this ANDA, and based upon the information you have presented to date we have concluded that the drug is safe and effective for use as recommended in the submitted labeling. However, we are unable to grant final approval to your ANDA at this time because of the unexpired patent issue noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the agency at this time, (i.e., information in your ANDA and the status of current good manufacturing practices (cGMPs) of the facilities used in the manufacture and testing of the drug product). This determination is subject to change on the basis of new information that may come to our attention.

The reference listed drug (RLD) upon which you have based your ANDA, Atripla Tablets, 600 mg/200 mg/300 mg, of Gilead Sciences Inc., is subject to periods of patent protection. The following patents and their expiration dates are currently listed in the agency's publication titled Approved Drug Products with

Therapeutic Equivalence Evaluations (the "Orange Book") for this drug product:

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
5,519,021 (the '021 patent)	May 21, 2013
5,663,169 (the '169 patent)	September 2, 2014
5,811,423 (the '423 patent)	August 7, 2012
5,814,639 (the '639 patent)	*March 29, 2016
5,914,331 (the '331 patent)	*January 2, 2018
5,922,695 (the '695 patent)	July 25, 2017
5,935,946 (the '946 patent)	July 25, 2017
5,977,089 (the '089 patent)	July 25, 2017
6,043,230 (the '230 Patent)	July 25, 2017
6,639,071 (the '071 patent)	February 14, 2018
6,642,245 (the '245 patent)	*May 4, 2021
6,703,396 (the '396 patent)	*September 9, 2021
6,939,964 (the '964 patent)	January 20, 2018

\*with pediatric exclusivity

Your ANDA contains paragraph III certifications to each of these patents under section 505(j)(2)(A)(vii)(III) of the Act stating that Cipla Limited will not market Efavirenz, Emtricitabine and Tenofovir Disoproxil Fumarate Tablets, 600 mg/200 mg/300 mg in the U.S. prior to the expiration of each of these patents. Therefore, final approval of your ANDA may not be made effective pursuant to section 505(j)(5)(B)(ii) of the Act until each of the patents listed above has expired, currently, September 9, 2021 (with pediatric exclusivity extension).

Please note that if FDA requires a Risk Evaluation & Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS. See section 505-1(i) of the Act.

To reactivate your ANDA prior to final approval, please submit a "MINOR AMENDMENT - FINAL APPROVAL REQUESTED" 90 days prior to the date you believe that your ANDA will be eligible for final approval. This amendment should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, or a settlement or licensing agreement, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, i.e., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of

these changes were made, and it should be designated clearly in your cover letter as a MINOR AMENDMENT - FINAL APPROVAL REQUESTED.

In addition to the amendment requested above, the agency may request at any time prior to the date of final approval that you submit an additional amendment containing the requested information. Failure to submit either or, if requested, both amendments may result in rescission of the tentative approval status of your ANDA, or may result in a delay in the issuance of the final approval letter.

Any significant changes in the conditions outlined in this ANDA as well as changes in the status of the manufacturing and testing facilities' compliance with cGMPs are subject to agency review before final approval of the ANDA will be made. Such changes should be categorized as representing either "major" or "minor" changes, and they will be reviewed according to OGD policy in effect at the time of receipt. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final agency approval under section 505 of the Act. The introduction or delivery for introduction into interstate commerce of this drug product before the final approval date is prohibited under section 301 of the Act. Also, until the agency issues the final approval letter, this drug product will not be deemed approved for marketing under section 505 of the Act, and will not be listed in the "Orange Book." Should you believe that there are grounds for issuing the final approval letter prior to September 9, 2021, you should amend your ANDA accordingly.

For further information on the status of this ANDA or upon submitting an amendment to the ANDA, please contact Sean Belouin, Project Manager, at (240) 276-8566.

Sincerely yours,
