

NDA 201917/S-3

SUPPLEMENT APPROVAL

Vertex Pharmaceuticals, Incorporated
Attention: Chuck Miller
Director, Regulatory Affairs
130 Waverly Street
Cambridge, MA 02139

Dear Mr. Miller:

Please refer to your Supplemental New Drug Application (sNDA) dated and received November 29, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for INCIVEK[®] (telaprevir), Film-Coated Tablets, 375 mg.

We acknowledge receipt of your amendments dated March 12, 2012 and March 19, 2012.

This "Prior Approval" supplemental new drug application proposes to remove atorvastatin from the Contraindications section and add it to the Drug Interactions section of the package insert, to update the "How Supplied/Storage and Handling" by deleting the 168 tablet bottle, the NDC number and handling instructions, and to update the Medication Guide with information on medications that may potentially interact with telaprevir.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert and Medication Guide), with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
