We acknowledge receipt of your amendments dated May 22 and June 11, 2013.

This supplemental new drug application provides for updates to the labeling for Lamisil (terbinafine hydrochloride) Tablets to reflect that drug reaction with eosinophilia and systemic symptoms (DRESS) syndrome has been reported in the postmarketing setting in association with terbinafine use.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text and with the minor editorial revisions listed below.

- Under section **17 PATIENT COUNSELING INFORMATION**, the brackets around the statement "See FDA-Approved Patient labeling (Patient Information)" were deleted.

To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
