Dear Mr. Urbancik:

Please refer to your Supplemental New Drug Application (sNDA) dated and received July 24, 2014, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Anzemet (dolasetron mesylate) injection, 20 mg/mL.

We acknowledge receipt of your amendment dated August 19, 2014.

We also refer to our letter dated July 10, 2014, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for the 5-HT₃ receptor antagonist class. This information pertains to the risk of serotonin syndrome.

This supplemental new drug application provides for revisions to the labeling for Anzemet (dolasetron mesylate).

The agreed upon changes to the language included in our August 19, 2014, email communication are considered minor and editorial and do not change the original safety message issued in our July 10, 2014, Safety Labeling Change Notification Letter.
