Marathon Pharmaceuticals, LLC  
Attention: Matthew Lee  
Director, Regulatory Affairs  
1033 Skokie Blvd., Suite 600  
Northbrook, IL 60062

Dear Mr. Lee:

Please refer to your Supplemental New Drug Application (sNDA) dated May 9, 2014, received on May 9, 2014, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Iprivask<sup>®</sup> (desirudin) Injection, 15 mg.

We acknowledge receipt of your amendments dated October 20 and November 5, 2014.

This "Prior Approval" supplemental new drug application provides for the conversion of the United States Prescribing Information (USPI) to the Physician Labeling Rule (PLR) format in response to a request from the Agency to fulfill the requirements on content and format of labeling for human prescription drug and biological products, and the implementation plan for complying with those requirements, published in the Federal Register in January 2006.

**APPROVAL & LABELING**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert, with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled "*SPL Standard for Content of Labeling Technical Qs and As*" at

<http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
