

NDA 21275/S-026

SUPPLEMENT APPROVAL

Allergan, Inc.
Attention: Sally K. Wixson, VMD MS
Manager, US Regulatory Affairs
200 Somerset Corp. Blvd.
Bldg. 200, # 620-5
Bridgewater, NJ 08807

Dear Dr. Wixson:

Please refer to your Supplemental New Drug Application (sNDA) dated and received August 16, 2013, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for LUMIGAN (bimatoprost ophthalmic solution), 0.03%.

We acknowledge receipt of your amendment dated March 31, 2014. This amendment constituted a complete response to our Complete Response letter dated February 14, 2014.

This "Prior Approval" supplemental new drug application provides for a single package insert for LUMIGAN (bimatoprost ophthalmic solution), 0.03%, and for revisions to Section 5.3 Intraocular Inflammation as follows (deletions are in ~~strike through~~ and additions are in underlined text):

5.3 Intraocular Inflammation

~~LUMIGAN[®] 0.01% and 0.03% should be used with caution in patients with active intraocular inflammation (e.g., uveitis) because the inflammation may be exacerbated.~~

Prostaglandin analogs, including bimatoprost, have been reported to cause intraocular inflammation. In addition, because these products may exacerbate inflammation, caution should be use in patients with active intraocular inflammation (e.g., uveitis).

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text and with the minor editorial revision listed below:

In the Highlights, “for topical ophthalmic use” should be added after the established name of the product, to read: **LUMIGAN[®] (bimatoprost ophthalmic solution) 0.03% for topical ophthalmic use.**

This change can be implemented at the next printing.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert, except with the revisions listed above, and with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes with the revisions listed above approved in this supplemental application, as well as annual reportable changes, and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Michael Puglisi, Regulatory Project Manager, at (301) 796-0791.

Sincerely,
