

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration  
Silver Spring MD 20993

NDA 050734/S-022

**SUPPLEMENT APPROVAL**

Pharmacia & Upjohn Company  
c/o Pfizer, Inc.  
Attention: Mikhail Abarshalin  
Senior Manager, Worldwide Safety & Regulatory  
235 East 42nd Street  
New York, NY 10017

Dear Mr. Abarahalin:

Please refer to your Supplemental New Drug Application (sNDA) dated June 4, 2014, received June 4, 2014 submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Idamycin PFS® (idarubicin hydrochloride injection) parenteral solution – 5mg, 10mg, and 20 mg.

We acknowledge receipt of your amendment dated December 3, 2014.

This “Prior Approval” supplemental new drug application provides for updates to the Idamycin PFS labeling. The Warnings Section was revised to describe the interaction between idarubicin and cardiotoxic drugs, including trastuzumab, cyclophosphamide and paclitaxel, which may be used in combination with anthracycline treatment.

**APPROVAL & LABELING**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

### **REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

### **REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Theresa Carioti, Regulatory Project Manager, at (301) 796-2848.

Sincerely,

*{See appended electronic signature page}*

Robert C. Kane, MD  
Deputy Director of Safety  
Division of Hematology Products  
Office of Hematology and Oncology Products
