

BLA 125085/305

SUPPLEMENT APPROVAL

Genentech, Inc.
Attention: Gladys Ingle
Regulatory Program Management
1 DNA Way, MS #241b
South San Francisco, CA 94080

Dear Ms. Ingle:

Please refer to your Supplemental Biologics License Application (sBLA), dated May 20, 2014, received May 20, 2014, submitted under section 351(a) of the Public Health Service Act for Avastin[®] (bevacizumab).

We acknowledge receipt of your amendments dated June 5, June 13, June 17, June 27, July 9, August 8, August 15, August 21, September 4, September 23, September 26, October 17, October 23, October 27, and October 28, 2014.

This Prior Approval supplemental biologics application proposes a new indication to include the use of Avastin[®] (bevacizumab) in combination with paclitaxel, pegylated liposomal doxorubicin, or topotecan for the treatment of patients with platinum-resistant, recurrent, epithelial ovarian, fallopian tube, or primary peritoneal cancer, who received no more than two prior chemotherapy regimens.

In the November 14, 2014 approval letter, the wording "...pegylated liposomal doxorubicin, or topotecan..." were inadvertently left off the indication. This replacement approval letter is a correction of that error. The correct indication is now listed. The effective approval date will remain November 14, 2014, which is the date of the original approval letter.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling

[21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical to the enclosed labeling (text for the package insert) and include the labeling changes proposed in any pending “Changes Being Effected” (CBE) supplements. Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this BLA, including pending “Changes Being Effected” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in MS Word format that includes the changes approved in this supplemental application.

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because this drug product for this indication has an orphan drug designation, you are exempt from this requirement.
