Dear Ms. Patel:

Please refer to your Supplemental New Drug Application (sNDA) dated and received September 15, 2015, submitted under section 505(b)(1) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Renigel (sevelamer hydrochloride) 400 mg and 800 mg Tablets.

We also refer to your amendment dated February 2, 2016, and our Approval letter dated March 9, 2016. The March 9, 2016 letter did not contain the revisions to the carton and container labels. This letter corrects that error and supersedes the March 9, 2016 letter.

This supplemental new drug application provides for labeling revised as follows (additions are marked as underlined text and deletions are marked as ~~striketrough text~~):

1. In **HIGHLIGHTS/RECENT MAJOR CHANGES**, the following text was added:

~~-----RECENT MAJOR CHANGES-----~~  
CONTRAINDICATIONS (4) 03/2016

- ~~-----CONTRAINDICATIONS-----~~
- ~~In patients with bowel~~ Bowel obstruction. (4)
  - Known hypersensitivity to sevelamer hydrochloride or to any of the excipients. (4)

2. Under **CONTRAINDICATIONS**, the following text was added:

Renigel is contraindicated in patients with bowel obstruction.

Renigel is contraindicated in patients with known hypersensitivity to sevelamer hydrochloride or to any of the excipients.

3. Under **ADVERSE REACTIONS/Postmarketing Experience**, the term “hypersensitivity” was added to the first sentence of the first paragraph.
4. The revision date was updated.

***The following changes were made to the carton and container labels:***

5. The middle numbers in the NDC codes were bolded and the font size increased.

There are no other changes from the last approved package insert.

We have completed our review of this supplemental application, as amended, and it is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories. Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
