

ANDA 211467

ANDA TENTATIVE APPROVAL

Micro Labs USA Inc.
U.S. Agent for Micro Labs Limited
106 Allen Road, Suite 102
Basking Ridge, NJ 07920
Attention: Sandhya Santosh
Vice President, Regulatory Affairs

Dear Sir:

This letter is in reference to your abbreviated new drug application (ANDA) received for review on January 8, 2018, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) for Dapagliflozin Tablets, 5 mg and 10 mg.

Reference is also made to the complete response letter issued by this office on October 26, 2018, and to any amendments thereafter.

We have completed the review of this ANDA, and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted labeling. The Office of Bioequivalence has determined your Dapagliflozin Tablets, 5 mg and 10 mg, to be bioequivalent and, therefore, therapeutically equivalent to the reference listed drug (RLD), Farxiga Tablets, 5 mg and 10 mg, of AstraZeneca AB (AstraZeneca).

However, we are unable to grant final approval to your ANDA at this time because of the patent and exclusivity issues noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the Agency at this time (e.g., information in your ANDA and the status of current good manufacturing practices (cGMPs) of the facilities used in the manufacturing and testing of the drug product). This determination is subject to change on the basis of new information that may come to our attention. This letter does not address issues related to the 180-day exclusivity provisions under section 505(j)(5)(B)(iv) of the FD&C Act or any other applicable exclusivity provisions.

The RLD upon which you have based your ANDA, AstraZeneca's Farxiga Tablets, 5 mg and 10 mg, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the Agency's publication titled *Approved Drug Products with Therapeutic Equivalence Evaluations* (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
6,414,126 (the '126 patent)	October 4, 2020
6,515,117 (the '117 patent)	October 4, 2020
6,936,590 (the '590 patent)	October 4, 2020
7,456,254 (the '254 patent)	June 30, 2025
7,851,502 (the '502 patent)	August 19, 2028
7,919,598 (the '598 patent)	December 16, 2029
8,221,786 (the '786 patent)	March 21, 2028
8,329,648 (the '648 patent)	August 18, 2026
8,361,972 (the '972 patent)	March 21, 2028
8,431,685 (the '685 patent)	April 13, 2025
8,461,105 (the '105 patent)	April 13, 2025
8,501,698 (the '698 patent)	June 20, 2027
8,685,934 (the '934 patent)	May 26, 2030
8,716,251 (the '251 patent)	March 21, 2028
8,721,615 (the '615 patent)	January 18, 2030
8,906,851 (the '851 patent)	August 18, 2026
9,198,925 (the '925 patent)	October 4, 2020
9,238,076 (the '076 patent)	April 15, 2024

With respect to the '254, '502, '598, '786, '648, '972, '685, '105, '698, '934, '251, '615, '851, and '076 patents, your ANDA contains paragraph IV certifications under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Dapagliflozin Tablets, 5 mg and 10 mg, under this ANDA. You have notified the Agency that Micro Labs Limited (Micro) complied with the requirements of section 505(j)(2)(B) of the FD&C Act, and that no action for infringement was brought against Micro within the statutory 45-day period.

With respect to the '126, '117, '590, and '925 patents, your ANDA contains paragraph III certifications to each of the patents under section 505(j)(2)(A)(vii)(III) of the FD&C Act stating that Micro will not market Dapagliflozin Tablets, 5 mg and 10 mg, prior to the expiration of the patents.

The RLD upon which you have based your ANDA, AstraZeneca's Farxiga Tablets, 5 mg and 10 mg, is also subject to periods of exclusivity. As noted in the Orange Book, the M-212 exclusivity is scheduled to expire on October 20, 2020, and the M-238 exclusivity is scheduled to expire on February 22, 2022. Therefore, final approval cannot be granted until the last exclusivity has expired, currently February 22, 2022, or you provide a letter from AstraZeneca that waives any unexpired exclusivity.

Please note that if FDA requires a Risk Evaluation and Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS. See section 505-1(i) of the FD&C Act.

RESUBMISSION

To request final approval, please submit an amendment titled “FINAL APPROVAL REQUESTED” with enough time to permit FDA review prior to the date you believe that your ANDA will be eligible for final approval. A request for final approval that contains no new data, information, or other changes to the ANDA generally requires a period of 90 days for Agency review. Accordingly, such a request for final approval should be submitted no later than 90 days prior to the date on which you seek approval. A request for final approval that contains substantive changes to this ANDA or changes in the status of the manufacturing and testing facilities’ compliance with cGMPs will be classified and reviewed according to OGD policy in effect at the time of receipt. Applicants should review available Agency guidance for industry related to amendments under the generic drug user fee program to determine the duration of Agency review needed to review the changes submitted. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

The amendment requesting final approval should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, settlement or licensing agreement, or other information described in 21 CFR 314.107, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, e.g., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of these changes were made, and it should be designated clearly in your cover letter as a “FINAL APPROVAL REQUESTED.”

In addition to the amendment requested above, the Agency may request, at any time prior to the date of final approval, that you submit an additional amendment containing information as specified by the Agency. Failure to submit either or, if requested, both types of amendments described above may result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final Agency approval under section 505(j) of the FD&C Act. The introduction or delivery for introduction into interstate commerce of this drug product before the final approval date is prohibited under section 301 of the FD&C Act. Also, until the Agency issues the final approval letter, this drug product will not be deemed approved for marketing under section 505(j) of the FD&C Act, and will not be listed in the Orange Book. Should you believe that there are grounds for issuing the final approval letter prior to February 22, 2022, you should amend your ANDA accordingly.

ANNUAL FACILITY FEES

The Generic Drug User Fee Amendments of 2012 (GDUFA) (Public Law 112-144, Title III) established certain provisions¹ with respect to self-identification of facilities and payment of annual facility fees. Your ANDA identifies at least one facility that is subject to the self-identification requirement and payment of an annual facility fee. Self-identification must occur by June 1st of each year for the next fiscal year. Facility fees must be paid each year by the date specified in the *Federal Register* notice announcing facility fee amounts. All finished dosage forms (FDFs) or active pharmaceutical ingredients (APIs) manufactured in a facility that has not met its obligations to self-identify or to pay fees when they are due will be deemed

misbranded. This means that it will be a violation of federal law to ship these products in interstate commerce or to import them into the United States. Such violations can result in prosecution of those responsible, injunctions, or seizures of misbranded products. Products misbranded because of failure to self-identify or pay facility fees are subject to being denied entry into the United States.

In addition, we note that GDUFA requires that certain non-manufacturing sites and organizations listed in generic drug submissions comply with the self-identification requirement. The failure of any facility, site, or organization to comply with its obligation to self-identify and/or to pay fees when due may raise significant concerns about that site or organization and is a factor that may increase the likelihood of a site inspection prior to approval. FDA does not expect to give priority to completion of inspections that are required simply because facilities, sites, or organizations fail to comply with the law requiring self-identification or fee payment.

Additionally, we note that the failure of any facility referenced in the application to self-identify and pay applicable fees means that FDA will not consider the GDUFA application review goal dates to apply to that application.

For further information on the status of this ANDA or upon submitting an amendment to the ANDA, please contact Honghong La, Regulatory Project Manager, at (240) 402 - 4630.

Sincerely yours,

{See appended electronic signature page}
