Dear Ms. Patel:

Please refer to your supplemental new drug application (sNDA) dated and received April 21, 2021, and your amendment, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Bactrim Injection (sulfamethoxazole and trimethoprim), 80 mg/mL and 16 mg/mL.

This Prior Approval supplemental new drug application provides for changes to the prescribing information (PI) to include information on respiratory failure due to hypersensitivity reactions, and on circulatory shock associated with rechallenge with sulfamethoxazole and trimethoprim products, including Bactrim. Accordingly, revisions have been made to the **WARNINGS AND PRECAUTIONS (5)** section **Hypersensitivity and Other Serious or Fatal Reactions subsection (5.2)** and to the **ADVERSE REACTIONS (6)** section, **Clinical Trials Experience (6.1)** subsection.

Other edits to reflect the changes and minor editorial and formatting edits were also made throughout the PI.

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(I)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

All promotional materials that include representations about your drug product must be promptly revised to be consistent with the labeling changes approved in this supplement, including any new safety information [21 CFR 314.70(a)(4)]. The revisions in your promotional materials should include prominent disclosure of the important new safety information that appears in the revised labeling.
