 • have had stomach ulcers or bleeding problems  
 • are age 60 or older • have had stomach ulcers or bleeding problems  
 • Heart attack and stroke warnings: NSAIDs, except aspirin, increase the risk of heart attack, heart  
 • failure, and stroke, these can be fatal. The risk is higher if you use more than directed or for longer  
 • than directed.  
 • Do not use  
 • if you have ever had an allergic reaction to any other pain reliever or to a fever reducer  
 • for strains, sprains, bruises or sports injuries. This product has not been shown to work for these  
 • types of injuries.  
 • If you are taking a diuretic  
 • you are under age 18 years, it is not known if this drug works or is safe in children under age 18 years.  
 • Ask a doctor or pharmacist before use if you are  
 • taking any other drug  
 • under a doctor's care for any serious condition.

**Directions**  
 Use up to 21 days unless directed by your doctor. Not for strains, sprains, bruises or sports injuries. This product has not been shown to work for these types of injuries.  
 If pregnant or breast-feeding, ask a health professional before use. It is especially important not to use this product during the last 3 months of pregnancy unless definitely directed to do so by a doctor because it may cause problems in the unborn child or complications during delivery.  
 Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.
