

For use with the **Technelite**  
(Technetium Tc 99m Generator)  
Recommended Usage:  
See Package Insert

Sterile Non-Pyrogenic  
**Technelite®**

(Technetium Tc 99m Generator)  
for the Production of  
Sodium Pertechnetate  
**Tc 99m Injection**  
**ELUATE COLLECTION VIAL**  
**(evacuated)**  
Quantity: 12  
Reorder: EV12

Australian Distributor:  
Global Medical Solutions  
Australia Pty. Ltd.

Store generator and Sodium Pertechnetate Tc 99m Injection at  
20° to 25°C (68° to 77°F) [see USP Controlled Room Temperature]

515934-0522  
873179-H02

Upon elution, vial will contain  
Technetium Tc 99m in isotonic 0.9%  
Sodium Chloride Injection,  
USP for diagnostic use.

Sterile  
Non-Pyrogenic **Technelite®**

(Technetium Tcm 99 Generator) for the  
Production of Sodium Pertechnetate  
**Tc 99m Injection**  
**ELUATE COLLECTION VIAL**  
**(evacuated)**

For use with the **Technelite**  
(Technetium Tc 99m Generator)

Recommended Usage: See Package Insert
