Qbrexza™
(glycopyrronium) cloth

Rx Only
NDC 70428-011-12

CAUTION: Flammable; keep away from heat or flame. Keep out of reach of children. Wash hands right away after application. Avoid contact with eyes.

Directions for Use: Wipe cloth across one entire underarm one time. Using the same cloth, wipe the other underarm one time. A single cloth should be used to apply Qbrexza to both underarms. See package insert for more information.

Usual Dosage: See package insert.

Each pouch contains:
glycopyrronium 66 mg
(equivalent to 105 mg of glycopyrronium tosylate) in a solution of citric acid, dehydrated alcohol, purified water, and sodium citrate.

Store at room temperature, 20°C–25°C (68°F–77°F); excursions permitted to 15°C–30°C (59°F–86°F) [See USP Controlled Room Temperature].
