PHARMACOLOGY REVIEW(S)

PHARMACOLOGY/TOXICOLOGY REVIEW/MEMO TO THE FILE

NDA 205208

Submission: SDN 1, serial number 0000, submitted 12/12/12, received on 12/13/12

Drug name: Desvenlafaxine (b)(4) ER tablets (50mg and 100mg strength)

Sponsor: Teva Pharmaceuticals, USA

Indication: Major Depressive Disorder

Reviewer: Shiny V. Mathew, Ph.D., Pharmacologist

HFD-130, Division of Psychiatry Products

RE: A new formulation of desvenlafaxine extended release tablets (as the fumarate salt); submitted under 505(b)(2).

Background: The current NDA for Desvenlafaxine (b)(4) Extended-Release tablets is a 505(b)(2) application with Pristiq® (approved on 02/29/2008) as the reference listed drug (RLD).

This extended release formulation contains desvenlafaxine fumarate as the active ingredient, as opposed to the desvenlafaxine succinate salt used in Pristiq® (Wyeth Pharmaceuticals, Inc., NDA 21992). Desvenlafaxine, the major metabolite of venlafaxine, is a norepinephrine and serotonin reuptake inhibitor (SNRI) exhibiting limited inhibition of dopamine reuptake. Desvenlafaxine has been in clinical use for over 4 years for Major Depressive Disorder (MDD) and has a well-established efficacy and safety profile.

The current submission: This submission is a 505(b)(2) application for the fumarate formulation of desvenlafaxine. The Sponsor of this NDA has provided clinical studies to demonstrate bioequivalence to the reference listed drug Pristiq® at both 50mg and 100mg doses. The Sponsor has relied on our previous finding of safety (and efficacy) for Pristiq® for the non-clinical data to support this NDA. Therefore, no new nonclinical data were submitted with this NDA.

No impurities, degradants, or novel excipients in Desvenlafaxine Fumarate Extended Release tablets that would require additional toxicological characterization have been identified at this time. Consequently, there are no Pharmacology/Toxicology issues with this NDA.

Conclusion: There are no Pharmacology/Toxicology issues that would prevent the approval of this NDA.

**PHARMACOLOGY/TOXICOLOGY FILING CHECKLIST FOR
NDA/BLA or Supplement**

NDA/BLA Number: 205208 Applicant: Teva Pharmaceuticals Stamp Date: December 13, 2012
USA

Drug Name: Desvenlafaxine fumarate ER NDA/BLA Type: 505(b)(2)

On **initial** overview of the NDA/BLA application for filing:

	Content Parameter	Yes	No	Comment
1	Is the pharmacology/toxicology section organized in accord with current regulations and guidelines for format and content in a manner to allow substantive review to begin?	X		This NDA is being submitted as a 505(b)(2) application. The Sponsor is relying on Agency's previous findings of safety and efficacy for the innovator desvenlafaxine product (Pristiq®); therefore, no nonclinical studies have been conducted in support of the submission. Both the RLD and the formulation for this NDA are for oral administration.
2	Is the pharmacology/toxicology section indexed and paginated in a manner allowing substantive review to begin?			N/A
3	Is the pharmacology/toxicology section legible so that substantive review can begin?	X		See Comment 1 above.
4	Are all required (*) and requested IND studies (in accord with 505 b1 and b2 including referenced literature) completed and submitted (carcinogenicity, mutagenicity, teratogenicity, effects on fertility, juvenile studies, acute and repeat dose adult animal studies, animal ADME studies, safety pharmacology, etc)?	X		No IND studies were required or requested.
5	If the formulation to be marketed is different from the formulation used in the toxicology studies, have studies by the appropriate route been conducted with appropriate formulations? (For other than the oral route, some studies may be by routes different from the clinical route intentionally and by desire of the FDA).			N/A
6	Does the route of administration used in the animal studies appear to be the same as the intended human exposure route? If not, has the applicant <u>submitted</u> a rationale to justify the alternative route?			N/A

**PHARMACOLOGY/TOXICOLOGY FILING CHECKLIST FOR
NDA/BLA or Supplement**

	Content Parameter	Yes	No	Comment
7	Has the applicant <u>submitted</u> a statement(s) that all of the pivotal pharm/tox studies have been performed in accordance with the GLP regulations (21 CFR 58) <u>or</u> an explanation for any significant deviations?			N/A
8	Has the applicant submitted all special studies/data requested by the Division during pre-submission discussions?			N/A
9	Are the proposed labeling sections relative to pharmacology/toxicology appropriate (including human dose multiples expressed in either mg/m2 or comparative serum/plasma levels) and in accordance with 201.57?	X		This 505(b)(2) application will be relying on content from RLD (Wyeth Pharmaceutical's Pristiq®) for the current labeling text.
10	Have any impurity – etc. issues been addressed? (New toxicity studies may not be needed.)	X		There are no currently known issues regarding new excipients, impurities and/or degradants present that may need to be qualified. No filing issues have been identified by the Chemistry reviewer.
11	Has the applicant addressed any abuse potential issues in the submission?			N/A
12	If this NDA/BLA is to support a Rx to OTC switch, have all relevant studies been submitted?			N/A

IS THE PHARMACOLOGY/TOXICOLOGY SECTION OF THE APPLICATION FILEABLE? yes

If the NDA/BLA is not fileable from the pharmacology/toxicology perspective, state the reasons and provide comments to be sent to the Applicant.

Please identify and list any potential review issues to be forwarded to the Applicant for the 74-day letter.

None at this time
