The Transmucosal Immediate Release Fentanyl (TIRF) REMS Access Program
An Overview for Chain Outpatient Pharmacies

To dispense TIRF medicines, your Chain Outpatient Pharmacy must enroll in the TIRF REMS Access program.

What is the TIRF REMS Access Program?
The TIRF REMS (Risk Evaluation and Mitigation Strategy) Access program is designed to ensure informed risk-benefit decisions before initiating treatment and, while patients are on treatment, to ensure appropriate use of TIRF medicines. TIRF medicines are available only through a restricted distribution program required by the Food and Drug Administration (FDA), because of the risk for misuse, abuse, addiction, overdose, and serious complications due to medication errors. A list of TIRF medicines available through the TIRF REMS Access program is located on the TIRF Products web page at www.TIRFREMSaccess.com/TirfUI/ProductList.

How does the TIRF REMS Access program work?
The TIRF REMS Access program requires pharmacies, prescribers, patients and wholesalers to enroll in the program in order to utilize TIRF medications. The supply of TIRF medicines to pharmacies is controlled by enrolled distributors, who will verify the current enrollment status of the pharmacy prior to shipment of TIRF medicines. Pharmacies are required to verify the prescriber and the patient are enrolled in the TIRF REMS Access program before dispensing any TIRF medication.

Does your pharmacy qualify as a Chain Outpatient Pharmacy?
For the purposes of this REMS, a chain outpatient pharmacy is defined as an outpatient pharmacy such as a retail, mail order or institutional outpatient pharmacy having a chain headquarters that is responsible for ensuring enrollment and training of the pharmacy staff of all associated outpatient pharmacies. The chain headquarters will enroll multiple pharmacy locations (i.e.: chain stores) in the TIRF REMS Access program. Additionally, to qualify as a chain outpatient pharmacy, your pharmacy must use a pharmacy management system to electronically transmit the required validation and claim information to the TIRF REMS Access program using established telecommunication standards.

NOTE: There are different requirements for inpatient pharmacies that only dispense for inpatient use. Please refer to “An Overview for Inpatient Pharmacies” for more information.

All enrollment activities can be completed at www.TIRFREMSaccess.com

If I have previously enrolled in an individual TIRF REMS do I need to enroll in the shared TIRF REMS Access Program?

All pharmacy enrollment information was transferred from the individual TIRF REMS to the TIRF REMS Access program on March 12, 2012. If the authorized pharmacist or pharmacy representative logged onto the TIRF REMS Access program website, executed a TIRF REMS Access contract with their switch provider to agree to the shared program terms and conditions before September 12, 2012, your pharmacy is able to order and dispense all TIRF medications. If the authorized pharmacist or pharmacy representative has not agreed to the shared terms and conditions, your pharmacy will need to enroll in the TIRF REMS Access program (see how to enroll below).

You will be required to re-enroll in the shared TIRF REMS two (2) years after your last enrollment in an individual REMS program if you wish to continue dispensing these products. You will be notified by the TIRF REMS Access program in advance of the need to re-enroll.
