PRESCRIBER CERTIFICATION LETTERS
FDA Requirement: Prescriber Certification Needed to Prescribe Tikosyn® (dofetilide)

[Date]

Dear Dr [insert last name]:

Per the Food and Drug Administration (FDA) requirements, in order to prescribe TIKOSYN, new prescribers are required to complete a one-time certification. TIKOSYN is indicated for the conversion to and maintenance of normal sinus rhythm (delay in the time to recurrence of atrial fibrillation/atrial flutter) in highly symptomatic patients with atrial fibrillation/atrial flutter of greater than 1 week.

The TIKOSYN Education Distribution Program, currently known as the TIKOSYN Risk Evaluation and Mitigation Strategy (REMS), is required by the FDA to ensure safe use of TIKOSYN in order to mitigate the risk of induced arrhythmia by:

- Ensuring that TIKOSYN is prescribed only by certified prescribers, and dispensed only by certified dispensers;
- Educating health care providers about the risks and the need to initiate and re-initiate therapy in a health care facility that can provide calculations of creatinine clearance, continuous electrocardiographic monitoring, and cardiac resuscitation;
- Informing patients about the serious risks associated with TIKOSYN therapy.

In order to become certified, you must review the enclosed materials and sign the certification form. The materials include the following:

- TIKOSYN Treatment Guidelines
- Prescribing Information
- Medication Guide
- Prescriber Certification Form

When you have reviewed all the materials, please sign and mail or fax back the certification form. The fax number is (800)-788-2637. After we have received your certification form, we will send a written confirmation of receipt.

In addition to your certification, retail pharmacies and institutional pharmacies must also be certified in order to dispense TIKOSYN. Before dispensing a prescription for TIKOSYN, the pharmacist must confirm that you are a health care professional who has been certified and is listed in the Pfizer National TIKOSYN Database.

It is important that you tell your patients to fill their TIKOSYN prescriptions as soon as possible after they are discharged to avoid any disruptions in their treatment. Although
patients must be provided with TIKOSYN upon discharge, it may take a few business days for the pharmacy to order TIKOSYN for subsequent prescriptions.

Should you have any questions regarding the certification program, please call 1-877-TIKOSYN or visit www.TIKOSYNREMS.com.
