iQOS™ – HOW IT'S DIFFERENT
It's electronic – but not an electronic cigarette.
Unlike e-cigarette products that heat fluid into a vapor, iQOS heats the real tobacco in Marlboro HeatSticks™, releasing smooth tobacco flavor.
Real tobacco – without the fire or ash.
iQOS delivers a clean, real tobacco experience. It heats the tobacco – but doesn't burn it – producing no ash and less odor.

iQOS™ – HOW IT WORKS
Real tobacco. No fire.
The iQOS Tobacco Heating System is designed for Marlboro HeatSticks™.
Marlboro HeatSticks™ fit inside the rechargeable iQOS holder. The tobacco is heated, not burned, to give you the smooth flavor of real tobacco, while producing less odor and no ash.
To recharge the iQOS holder, simply place it inside the pocket charger.
iQOS is rechargeable, reusable, and designed to last. Once you've got iQOS, there's nothing more to buy – apart from your preferred blend of Marlboro HeatSticks™.

iQOS™ – ABOUT MARLBORO HEATSTICKS™
Marlboro HeatSticks™ are the source of the real tobacco experience you get with iQOS.
Marlboro HeatSticks™ are crafted for smooth tobacco enjoyment. They look and feel instantly familiar – paper, a filter, and real tobacco. While they may be smaller in size than conventional cigarettes, they have a similar draw and give you just as many puffs.
Marlboro HeatSticks™ are available in two blends: Original and Menthol. Both blends are mellow, with a crisp taste and clean finish.
