VI. Comparison of Present Device & Predicate Device:

Comparison Chart of Koala Clamp & Cutter and Predicate Device		
	Koala Clamp	***ClampCut (SCC-23)***
Indications for Use	The indications for use are to simultaneously clamp and cut the umbilical cord.	The indications for use are to simultaneously clamp and cut the umbilical cord. The device reduces the risk to healthcare practitioners of unnecessary exposure to infection by bloodborne diseases.
Target Population	All births	All births
Materials: Plastic	Lexan 144R (alternate: Lexan 124R)	Polyamid 6.6.
Biocompatible	Yes	Yes
Materials: Blade	Stainless Steel Surgical Blade	Stainless Steel Knife
Shield (for Blade)	Yes	No
Dimensions: Open Unit	74mm x 50.6mm x 32.9mm	120mm x 70mm x 20mm
Dimensions: Closed Unit	46.8mm x 50.6mm x 32.9mm	85mm x 60mm x 20mm
Dimensions: Infant Clamp	43.5mm x 23.9mm x 6.5mm	50mm x 9mm x 7mm
Weight of Total Unit	1.316 oz	0.811 oz (23 grammes)
Weight of Cutter Unit alone	0.53 oz	0.713 oz (20.2 grammes)
Weight of Infant Clamp alone	0.086 oz	0.099 oz (2.8 grammes)
Sterility	Gamma-Sterilized (alternate: Ethylene Oxide Gas)	Ethylene Oxide Gas
Anatomical Sites	Umbilical Cord	Umbilical Cord

Re: K011621
Koala Clamp & Cutter, Umbilical Cord Clamp and Cutter
Dated: May 22, 2001
Received: May 25, 2001
Regulatory Class: II
21 CFR §884.4530/Procode: 85 HFW

Dear Mr. Hicks:

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Current Good Manufacturing Practice requirements, as set forth in the Quality System Regulation (QS) for Medical Devices: General regulation (21 CFR Part 820) and that, through periodic QS inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4639. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its internet address "http://www.fda.gov/cdrh/dsma/dsmamain.html".

Sincerely yours,

Nancy C Brogdon
