510(k) Premarket Notification  
Ovum Pick-Up Aspiration Needle  
Cook OB/GYN

## I. 510(k) SUMMARY

### Submitted By:

Debbie Schmitt  
Cook OB/GYN  
1100 West Morgan Street  
Spencer, Indiana 47460  
(812) 829-4891  
October 13, 1998

### Device

Trade Name: Ovum Pick-Up Aspiration Needle  
CFR Reference: 884.6100  
Proposed Classification Name: Class II 85 MQE

### Predicate Devices:

Cook OB/GYN understands due to the recent reclassification there are no predicate devices. We have used Cook Australia products as our predicate to illustrate safety and effectiveness.

The Ovum Pick-Up Aspiration Needle is substantially equivalent to predicate Ovum Pick-Up Aspiration Needles in terms of indications for use, design, construction and materials equivalence. Specifically, this device is similar to the Ovum Pick-Up Aspiration Needles manufactured by Cook Australia.

### Device Description:

The Ovum Pick-Up Aspiration Needle is used for transvaginal ultrasound or laparoscopic aspiration/flushing of oocytes from ovarian follicles.

### Substantial Equivalence:

This device will be manufactured according to specified controls and a Quality Assurance Program. This device will undergo packaging similar to the devices currently marketed and distributed by Cook OB/GYN. Being similar with respect to indications for use, materials and physical construction to predicate devices, this device meets the requirements for section 510(k) substantial equivalence.

Ovum Pick-up Aspiration Needles  
Dated: December 11, 1998  
Received: December 12, 1998  
Regulatory Class: II  
21 CFR 884.6100/Procode: 85 MQE

Ms. Debbie Schmitt:

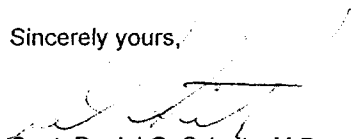

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Current Good Manufacturing Practice requirements, as set forth in the Quality System Regulation (QS) for Medical Devices: General regulation (21 CFR Part 820) and that, through periodic QS inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4613. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or (301) 443-6597, or at its internet address "<http://www.fda.gov/cdrh/dsma/dsmamain.html>".

Sincerely yours,

Capt. Daniel G. Schultz, M.D.
