K992938

510(K) SUMMARY

Device Sponsor:	Li Medical, 4 Armstrong Road, Shelton, CT 06484,
Contact:	Rhodemann Li, Vice President
Date:	August 30, 1999
Classification Name:	Unclassified
Common Name:	Bone anchor
Proprietary Name:	Li Medical RotorBlade™
Predicate Device:	Li Medical RotorBlade™ (K983435)
Device Description:	Made from surgical grade PLL (homopolymer poly (L(-) -lactide), the LM Anchor is designed as a propeller blade type anchor device through which suture is passed to provide a means for soft tissue to bone attachment.
Intended Use:	Shoulder - rotator cuff repair
Technical Comparison:	The LM Anchor is identical to the predicate devicein its intended use, and similar in safety and effectiveness. The only difference between the new anchor and the predicate device is that the dimensions have been increased slightly in areas of stress and the suture eyelets have been widened to accommodate up to two (2) USP #2 sutures.
Performance Data:	Pre-clinical testing showed that the mean pullout strength of the LM Anchor was substantially equivalent to the mean pullout strength of the predicate device.

Re: K992938
Trade Name: RotorBlade™ Suture Anchor
Regulatory Class: II
Product Code: MAI and GAS
Dated: August 19, 1999
Received: August 31, 1999

Dear Mr. Li:

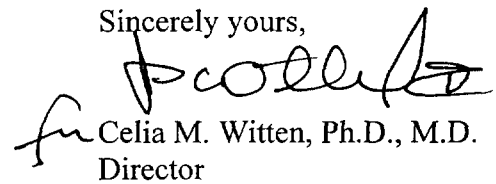
We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the current Good Manufacturing Practice requirement, as set forth in the Quality System Regulation (QS) for Medical Devices: General regulation (21 CFR Part 820) and that, through periodic (QS) inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4659. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or at (301) 443-6597, or at its Internet address "http://www.fda.gov/cdrh/dsmamain.html".

Sincerely yours,



Celia M. Witten, Ph.D., M.D.
