510(k) SUMMARY

This summary of 510(k) safety and effectiveness information is being submitted in accordance with the requirements of SMDA 1990 and 21 CFR §807.92.

The assigned 510(k) number is: K101262

1. **Submitter's Identification:**

   **Pressure Tech, Inc.**
   102 Woodcleft Avenue
   Freeport, NY 11520
   Phone: 516 546 2030
   Contact: Charlie Johnson
   Date Summary Prepared: February 16, 2010

2. **Name of the Device:**

   Flexi-Lite

3. **Common or Usual Name:**

   Hyperbaric Chamber
   Regulation: 21 CFR 868.5470
   Product Code: CBF

4. **Predicate Device Information:**

   K051759  Flexi-Lite Hyperbaric Chamber

5. **Device Description:**

   The Flexi-Lite flexible hyperbaric chamber is a mild hyperbaric chamber for pressures less than 4 psi. This lightweight and portable chamber utilizes atmospheric Air as supplied by a GAST model 0523/1023 “oil-less, breathable air compressor” to pressurize the chamber and provide a suitable environment for the occupant. The Flexi-Lite construction utilizes a dual bag design with the inner bag containing the pressure and an exterior bag to provide structural support. All components are attached to the inner bag utilizing bulkhead connections. It is outfitted with two externally mounted metal relief valves (set at 4 psi), two metal Air addition valves (one external & one internal), two metal depressurization valves (one external & one internal), two pressure gauges (one external & one internal), and one metal Air sampling port. In total it weighs 39 lbs (compressor adds another 54 lbs).
6. **Intended Use:**

The Flexi-Lite Hyperbaric chamber is a hyperbaric chamber intended to be used in treating mild symptoms consistent with Acute Mountain Sickness (AMS) as prescribed by or under the direction of a physician.

Caution: Federal law restricts this device to sale by or on the order of a physician.

7. **Comparison to Predicate Devices:**

8. **Discussion of Non-Clinical Tests Performed for Determination of Substantial Equivalence are as follows:**

Bench testing was performed as determined by the hazard analysis. The Flexi-Lite passed all bench testing.

10. **Conclusions:**

There are no significant differences between the Flexi-Lite and the predicate device therefore we have concluded that the Flexi-Lite is substantially equivalent.
Pressure-Tech, Incorporated  
C/O Ms. Maria Griffin  
MDI Consultants, Incorporated

Re: K101262  
Trade/Device Name: Flexi-Lite  
Regulation Number: 21 CFR 868.5470  
Regulation Name: Hyperbaric Chamber  
Regulatory Class: II  
Product Code: CBF  
Dated: May 27, 2010  
Received: May 28, 2010

Dear Ms. Griffin:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm for the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance. Also, please note the regulation entitled, “Misbranding by reference to premarket notification” (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,
