SECTION IV

510(k) SUMMARY OF SAFETY AND EFFECTIVENESS INFORMATION

as required by the Safe Medical Devices Act of 1990 and codified in 21 CFR 807.92 upon which the substantial equivalence is based.

Smith & Nephew Instrument Trays

Date Prepared: July 28, 2010

A. Submitter's Name:

C. Device Name

Trade Name:	Smith & Nephew Multi-Purpose Sterilization Tray
Common Name:	Sterilization Tray
Classification Name:	Sterilization Wrap Containers, Trays, Cassettes and Other Accessories
Class:	II
Product Code:	KCT
Classification Number:	21 CFR §880.6850

D. Predicate Devices

The subject Smith & Nephew Instrument Trays are substantially equivalent in Intended Use and Fundamental Scientific Technology to the following legally marketed device in commercial distribution:

K073551: Tray - ACUFEX™ DIRECTOR ELITE Drill Guide Systems
K090562: Tray - ELITE Premium Biceps Tenodesis System
K091627: Tray - ELITE Premium Instability System

Description of Device

The Smith & Nephew Multi-Purpose Sterilization tray is a stainless steel tray provided with a silicone mat. The tray is designed to contain and protect reusable surgical instruments during transport, sterilization, and storage and to allow optimal exposure of the tray's contents to sterilant during the sterilization process.

The technological characteristics of the subject tray are identical to the predicate devices. The internal configuration of the tray has been modified from the predicates to remove tiers and/or instrument holders.

Non-clinical validation testing was conducted for sterilization and functional strength in order to demonstrate that the subject device is safe and effective, and whose performance meets the requirements of its pre-defined acceptance criteria and intended uses.

Intended Use

Smith & Nephew Multi-Purpose Sterilization trays are intended to contain Smith & Nephew reusable surgical instruments for convenient organized storage, sterilization and transport between usages. The subject instrument trays are suitable for use in a prevacuum steam sterilization method. The subject instrument trays are not intended to maintain sterility; they are intended to be used in conjunction with a FDA cleared sterilization wrap in order to maintain sterility of the enclosed devices.

Validated Sterilization Parameters:

Method	Temperature	Exposure Time	Drying Time
Pre-vacuum steam	132 C (270 F)	4 minutes	30 minutes

E. Comparison of Technological Characteristics

The subject Smith & Nephew Multi-Purpose Sterilization trays have the same fundamental technological characteristics as the unmodified predicate device. The subject trays are substantially equivalent in design, materials and intended use to the predicate devices. There are no significant differences between the proposed and predicate devices that raise new questions of safety or efficacy.

H. Summary Performance Data

Performance testing was conducted in accordance with AAMI ST77:2006 *Containment Devices for reusable medical device sterilization.*

Re: K102122
Trade/Device Name: Smith & Nephew Multi-Purpose Instrument Tray
Regulation Number: 21 CFR 880.6850
Regulation Name: Sterilization Wrap
Regulatory Class: II
Product Code: KCT
Dated: September 21, 2010
Received: September 22, 2010

Dear Ms. Flores:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm for the Center for Devices and Radiological Health's (CDRH's) Office of Compliance. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,
