</tr>
</tbody>
</table>
No performance standards have been established under Section 514 of the Food, Drug and Cosmetic Act for these devices. Performance testing of the subject Merit Medical 20 ml Syringe was conducted based on the risk analysis and based on the requirements of the following FDA guidance document and international standards:

- Guidance on the Content of Premarket Notification [510(k)] Submissions for Piston Syringes, April 1993
- ISO 594-1:1996, Conical fittings with a 6% (Luer) taper for syringes, needles and certain other medical equipment – Part 1: General requirements
- ISO 594-2:1998, Conical fittings with 6% (Luer) taper for syringes, needles and certain other medical equipment – Part 2: Lock fittings
- ISO 10993-1: 2009, Biological Evaluation of Medical Devices Part-1: Evaluation and Testing within a risk management process, and the FDA Modified ISO 10993 Test Profile
- EN ISO 10993-7:2008, Biological Evaluation of Medical Devices, Part 7: Ethylene Oxide Sterilization Residuals

The following is a list of all significant testing that was successfully completed:

- Cleanliness
- Limits for acidity and alkalinity
- Limits for extractable metals
- Inspection for lubricant contaminants
- Tolerance on graduation capacity
- Graduated scale
- Numbering of scale
- Overall length of scale to nominal capacity
- Position of scale
- Barrel – finger grips
- Piston/plunger assembly – design
- Piston/plunger assembly – fit of piston in barrel
- Piston/plunger assembly – fiducial line
- Gauging
- Separation force
- Unscrewing torque
- Ease of assembly
- Resistance to overriding
- Resistance to cracking
Position of nozzle on end of barrel
Nozzle lumen
Dead space
Freedom from air leakage
Freedom from liquid leakage
Freedom from liquid leakage with side force
Adhesion of ink
Biocompatibility tests
  Cytotoxicity
  Sensitization
  Irritation
  Acute Systemic Toxicity
  Hemocompatibility

Packaging performance after exposure to accelerated aging and simulated shipping and handling conditions:
  Visual inspection
  Dye penetration testing
  Underwater leak test (bubble emission testing)
  Seal strength-seal peel tensile strength
  Burst pressure testing

The results of the testing demonstrated that the subject Merit Medical 20 ml Syringe met the pre-determined acceptance criteria applicable to the safety and efficacy of the device.

Based on the indications for use, design, and safety and performance testing, the subject Merit Medical 20 ml Syringe meets the requirements that are considered essential for its intended use and is substantially equivalent to the predicate device, the Merit Medical 1-mL Syringe, manufactured by Merit Medical Systems, Inc.
Ms. Michaela Rivkowich  
Principal Regulatory Affairs Specialist  
Merit Medical Systems, Incorporated

Re: K111091  
Trade/Device Name: Merit Medical 20 ml Syringe  
Regulation Number: 21 CFR 880.5860  
Regulation Name: Piston Syringe  
Regulatory Class: II  
Product Code: FMF  
Dated: May 24, 2011  
Received: May 26, 2011

Dear Ms. Rivkowich

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); Good Manufacturing Practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm for the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/Reportaproblem/default.htm for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYOU/Industry/default.htm.

Sincerely yours,

Anthony D. Watson, B.S., M.S., M.B.A.
