Device Classification

Device Sponsor: Qinhuangdao Aidite High-Technical Ceramics Co.
Device Trade Name: Aidite Zirconia Dental Ceramics
Product Classification Name: Powder, Porcelain
Product Code: EIH
Regulation Name: Porcelain powder for clinical use
Regulation Number: 872.6660
Classification Panel: Dental Devices
Intended Use

Aidite Zirconia Dental Ceramics are indicated for the production of artificial teeth in fixed or removable dentures, or for jacket crowns, facings, and veneers.

Predicate Device

Upcera Zirconia Blanks (K093560)

Device Description

Aidite Zirconia Dental Ceramics are derived from zirconia powder that has been processed via uni-axial die pressing, followed by iso-static pressing, to achieve various shapes of uniform density and distribution. The ceramic blocks can be fabricated into various prosthetic dental devices. Physical and mechanical properties for Aidite Zirconia Dental Ceramics are shown in Table 5-1 and are similar in nature to the predicate device.

Aidite Zirconia Dental Ceramics are offered in seven (7) different product families of shapes and a multitude of different sizes as shown below in Figure 1 and Table 5-2 and are capable of being machined into complex dental shapes using modern machining methods, and are similar to the sizes and shapes of the predicate device. The one exception is the AS-XND System of
blocks is pre-mounted on mandrels. Any difference in the net shapes and dimensions between Aidite Zirconia Dental Ceramics and those offered by the manufacturer of the predicate devices are incidental to the performance of the final dental prosthetic devices that will be fabricated from them.

Product Performance Testing

Aidite Zirconia Dental Ceramics have been tested for their physical and chemical properties in
Zirconia Dental Ceramics

accordance with ISO 6872 and BS EN 1641, as well as biocompatibility in accordance with ISO 10993-1.

Clinical Testing

Clinical testing was not performed for Aidite Zirconia Dental Ceramics as part of the Pre-market Notification requirements for this submission, as dental ceramics that fall under FDA product code EIH have a long history of safe and effective use in the US. The raw materials used in Aidite Zirconia Dental Ceramics are identical to the raw material used in the predicate device and are sourced from the same raw material supplier in Japan, and do not raise any questions regarding their safety and effectiveness as compared to the predicate device.

Substantial Equivalence

By definition, a device is substantially equivalent to a predicate device when the device has the same intended use and the same technological characteristics as the previously cleared predicate device, or has the same intended use and different technological characteristics, and it can be demonstrated that the new device is substantially equivalent to the predicate device, and that the new device does not raise different questions regarding its safety and effectiveness as compared to the predicate device.

It has been shown in this 510(k) submission that the differences between Aidite Zirconia Dental Ceramics and the predicate device do not raise any questions regarding its safety and effectiveness. Aidite Zirconia Dental Ceramics, as designed and manufactured, therefore are determined to be substantially equivalent to Upcera Zirconia Blanks previously cleared under K093560.

Re: K111291
Trade/Device Name: Aidite Zirconia Dental Ceramics
Regulation Number: 21 CFR 872.6660
Regulation Name: Porcelain Powder for Clinical Use
Regulatory Class: II
Product Code: EIH and ELL
Dated: April 22, 2011
Received: May 6, 2011

Dear Mr. Goldman:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/ CentersOffices/CDRH/CDRHOFFices/ucm115809.htm for the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance. Also, please note the regulation entitled, “Misbranding by reference to premarket notification” (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,

Anthony D. Watson, B.S., M.S., M.B.A.
