DATE OF SUBMISSION: October 5, 2012

OWNER: Pulpdent Corporation

CONTACT:
Kenneth J. Berk
80 Oakland Street
PO Box 780
Watertown, MA 02472 USA

DEVICE:
Trade Name: RMGI Low Viscosity
Classification Name: Dental cement
FDA Product Code: EMA, 21 CFR Part 872.3275

PREDICATE DEVICES:
Pulpdent Tuff-Temp 2.0
3M RelyX Luting Plus
3M Vitrebond Plus LC
GC Fuji Lining LC
GC Fuji Plus Lining Capsule

INTENDED USE:
Pulpdent RMGI Low Viscosity is a resin-modified glass ionomer preparation used by dental professionals as a liner, base or luting material in dental restorations.

DESCRIPTION:
Pulpdent RMGI Low Viscosity is a resin-modified glass ionomer preparation with both a bioactive resin matrix and bioactive glass fillers. In this context, ‘bioactive’ refers to the release of beneficial ions from the resin and glass fillers into the oral environment. As a resin-modified glass ionomer, RMGI Low Viscosity has three setting mechanisms: light cure, self-cure resin chemistry, and acid-base glass ionomer reaction. It contains no Bisphenol A, no Bis-GMA and no BPA derivatives. RMGI Low Viscosity is a paste-paste formulation provided in an automix syringe.

### CONCLUSION:

From the above comparisons and the bench testing, it can be concluded that *Pulpdent RMGI Low Viscosity* is substantially equivalent in design, composition, performance and intended use to the predicate products listed above. The predicate products have been found substantially equivalent under the 510(k) Premarket Notification process as Class II Dental Devices under CFR 872.3275 and have been used by dental professionals for more than 20 years. A search of the relevant scientific literature shows that resin-modified glass ionomers used for cavity lining and luting have been extensively studied. See References below.

Watertown, Massachusetts 02472

Re: K123265
Trade/Device Name: Pulpdent RMGI Low Viscosity
Regulation Number: 21 CFR 872.3275
Regulation Name: Dental Cement, Cavity Liner
Regulatory Class: II
Product Code: EMA, EJK
Dated: October 16, 2012
Received: October 19, 2012

Dear Mr. Berk:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucrm115809.htm for the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,

Kwame O. Ulmer
