510(k) Summary

February 27, 2012

826 Coal Creek Circle
Louisville, Colorado 80027 USA
Telephone Number: 720-890-3200
Fax Number: 720-890-3500

Contact: Sharon McDermott
Senior Regulatory Affairs Specialist

Proprietary Trade Name:

Quadcut®, 3.0 mm x 13 cm
Quadcut®, 3.4 mm x 13 cm
Quadcut®, 4.3 mm x 13 cm

II. Common Name: Stereotaxic Instrument

III. Classification Name: Stereotaxic Instrument (21 CFR 882.4560)

IV. Classification: Class I (21 CFR 882.4560)

V. Product Code: HAW

VI. Product Description:
The navigated Quadcut® is a sterile, single use surgical instrument intended for the incision and removal of soft and hard tissue or bone in general otorhinolaryngology, head and neck and otoneurological surgery. Quadcut® is an accessory component of the StraightShot M4 handpiece, which is an integral part of the XPS and IPC Systems. The XPS and IPC systems provide power to drive the blades during ENT procedures.

Quadcut® is intended for attachment to the M4 hand piece for use in conjunction with Fusion ENT software on a Medtronic computer-assisted surgery system. Each blade has a tracker mounted on it to allow for navigation during the ENT surgical procedure. The system’s mobile emitter generates a low-energy magnetic field to locate the tracker mounted on the blade. Then, the software displays the location of the blade’s tip within multiple patient image planes and other anatomical renderings.
VII. Indications for Use:
The XPS/IPC System is intended for the incision and removal of soft and hard tissue or bone in general otorhinolaryngology, head and neck, and otoneurological surgery.

The Medtronic computer-assisted surgery system and its associated applications are intended as an aid for precisely locating anatomical structures in either open or percutaneous procedures. Their use is indicated for any medical condition in which the use of stereotactic surgery may be appropriate, and where reference to a rigid anatomical structure, such as the skull, can be identified relative to a CT- or MR-based model, or digitized landmarks of the anatomy.

The system and its associated applications should be used only as an adjunct for surgical guidance. They do not replace the surgeon’s knowledge, expertise, or judgment.

VIII. Identification of Legally Marketing Devices (Predicate Devices)

The subject devices have the same intended use and technological characteristics as the predicate devices.
X. Discussion of the Performance Testing
Testing was completed to ensure the functionality and compatibility with the identified Medtronic products. Specifically, testing with Medtronic Navigation systems and Fusion software was conducted to ensure acceptable navigational accuracy. Test samples were subjected to simulated real-life use conditions during functional testing.

XI. Conclusions
The navigated Quadcut® has been shown through comparison and testing to be substantially equivalent to the identified predicate devices.

Re: K130608
Trade/Device Name: Quadcut
Regulation Number: 21 CFR 882.4560
Regulation Name: Stereotaxic Instrument
Regulatory Class: Class II
Product Code: HAW
Dated: June 25, 2013
Received: June 25, 2013

Dear Ms. McDermott:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set
forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,
