Device Trade Name: SharpsTank™ Reusable Sharps Container
Device Common Name: Reusable sharps container
Device Classification Name: Accessory to hypodermic single lumen needle
Device Classification: Class II
Product Code: 80 MMK
21 CFR 880.5570

Predicate Device: K083511
Industrial Water Solutions, Inc. (Sharpsology)
Enviro Sharp Solutions 3, reusable sharps container

Intended Use:
Rehrig Healthcare Systems SharpsTank™ reusable sharps containers are intended to be used for the collection and transportation of contaminated sharps.

Device Description:
A 4.9 gallon reusable sharps container consisting of the container body, an integrated hinged lid, a tortuous path mail chute and flusher insert.

Sharps are deposited into the container by placing the used sharps in the horizontal torturous path mail chute which allows the sharps to drop into the container while keeping fingers and hands away from direct access to the contents in the container. During use the containers can be placed in the optional counter top holder or in the optional wall brackets.
When the contents reach the fill line the flusher and lid are engaged into the final secured position.

Performance Testing:

The FDA has not established a performance standard for this product under Section 514. However, the Rehrig Sharps Tank containers comply with criteria identified in FDA guidance document, OSHA blood borne pathogens regulations and Department of Transportation regulations for transporting regulated medical waste.

Summary of Substantial Equivalence:

The design and functional characteristics of the SharpsTank™ and the predicate device are similar as indicated in the predicate device comparison table below. Both the Rehrig device and the predicate device reusable sharps containers are molded from polymeric materials, and conform to national and/or international standards for puncture resistance, leakage, stability, impact resistance, and life cycle testing.

The Rehrig Pacific SharpsTank™ reusable/disposable sharps container introduces no new questions concerning the safety or effectiveness and performs as well as or better than the predicate device. Therefore, the Rehrig Pacific SharpsTank™ is substantially equivalent to the predicate device (K083511).

Re: K131087
Trade/Device Name: SharpsTank™ Reusable Sharps Container
Regulation Number: 21 CFR 880.5570
Regulation Name: Hyperdermic single lumen needle
Regulatory Class: II
Product Code: MMK
Dated: April 26, 2013
Received: April 30, 2013

Dear Mr. Olmstead:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm.

Sincerely yours,

Tejasri Purohit-Sheth, M.D.

Indications for Use

510(k) Number: Not yet assigned  K131087

Device Name: SharpsTank™ Reusable Sharps Container

Device Part (Model) Number: Model TS

Indications for Use:

Rehrig Healthcare’s reusable 4.9 gallon sharps containers are intended to be used for the collection and transportation of used medical sharps. The containers are intended to be used by healthcare workers in hospitals, clinics, physician offices, dental offices, laboratories, veterinarian offices, and other areas where sharps disposal is needed.

Empty Weight:
5.66 lbs.

Dimensions:
Assembled Container: 15.14"L x 7.48"W x 19.96"H

Color: Transparent tan with red/orange red label and contrasting Biohazard Symbol

Prescription Use AND/OR Over-The-Counter Use X
(Part 21 CFR 801 Subpart D) (21 CFR 801 Subpart C)

(PLEASE DO NOT WRITE BELOW THIS LINE – CONTINUE ON ANOTHER PAGE IF NECESSARY)
