G: 510(k) Summary

February 20, 2002

Company: Gyrus Medical, Inc.
6655 Wedgwood Road
Maple Grove, MN
Tel. No. (763) 416-3000
FAX. No. (763) 416-3070

Contact: Frederick G. Mades
Regulatory Affairs Manager

Common/Usual Name: Electrosurgical Instruments

Classification Name: Electrosurgical Cutting and Coagulation Device And Accessories
(21 CFR 878.4400)

Proprietary Name: Zip Open Forceps with Electrosurgical Cut

The device is a Class II medical device. The Zip Open Forceps with Electrosurgical Cut is a modification to the predicate device cleared under K000496. The Open Forceps is similar in construction and in component materials when compared to the predicate device. The indications for use are similar to the predicate devices cleared under K000496 and K904993. The device consists of grasping jaws connected to a handle. The handle has finger loops integrated into it to allow the physician to easily manipulate the device for grasping, dissection, electrosurgical coagulation and cutting. The overall length of the device is nine (9) inches. The device will be available in three distinct jaw configurations. The intended use of the device is to electrosurgically coagulate and cut tissue as well as to grasp and dissect tissue during the performance of open general surgical procedures. The energy source, Bipolar Electrosurgical Energy, is the same energy type as used for the predicate devices. The forceps jaws are electrically isolated from each other enabling one jaw to act as a return electrode, eliminating the need for a return pad. In addition, one jaw contains a second electrically isolated electrode element to effect electrosurgical cutting.

In conclusion, as the design, materials of construction, function and intended use of the Zip Open Forceps with Electrosurgical Cut is similar to that of the predicate devices currently cleared, Gyrus Medical Inc. believes that no new issues of safety and effectiveness are raised and that the submitted device is substantially equivalent.

Re: K020585

Trade/Device Name: Zip Open Forceps with Electrosurgical Cut
Regulation Number: 21 CFR 878.4400
Regulation Name: Electrosurgical Cutting and Coagulation Device and Accessories
Regulatory Class: Class II
Product Code: GEI
Dated: June 11, 2002
Received: June 12, 2002

Dear Mr. Mades:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

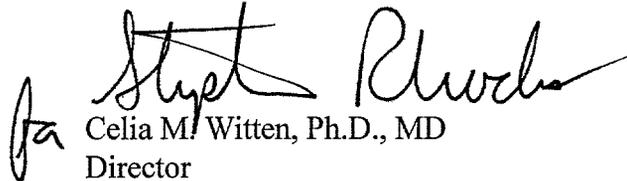

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

Page 2 – Mr. Frederick G. Mades

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 21 CFR Part 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4659. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/dsma/dsmamain.html>

Sincerely yours,

A handwritten signature in black ink, appearing to read "Celia M. Witten". The signature is written in a cursive style with a large initial "C" and "W".
