Summary of Safety and Effectiveness

Submitter's name, address, telephone number and contact person:

Bioplate, Inc.
6911 Melrose Avenue
Los Angeles, CA 90038
(323) 549-9500
(323) 935-0110 (fax)

Contact Person: Carol E. Jones

Trade Name of Device

Modified plate designs for use with the Bioplate® Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery

Common name

Bone plates and bone screws

Classification name

Bone Plate (21 CFR 872.4760)

Predicate Devices

(1) Bioplate, Inc.
Bioplate® Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery
K943071

(2) Bioplate, Inc.
Bioplate® Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery
K992330

(3) TiMesh Inc.
Softplates and screws
K923419, K923802, K973145
Description of the device

Modified plate designs for use with the Bioplate® Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery includes a variety of plate configurations for different anatomical applications. Titanium alloy screws of varying lengths are included for fixation of the plates to the craniomaxillofacial bony tissue.

The bone plates will be manufactured of commercially pure titanium.

Intended used of the device

The modified plate designs for use with the Bioplate Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery are intended for use in
the treatment of fractures and reconstructive procedures of the craniomaxillofacial skeleton and non-load bearing fixation, including cranial bone fixation and orbital fixation. Each device is intended for single use only and only in conjunction with other titanium and titanium alloy implants.

**Comparison of the devices’ technological characteristics with those of predicate devices**

The modified plate designs for use with the Bioplate Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery has the same indications for use as the Bioplate, Wurzburg, Synthes, TiMesh, and KLS-Martin predicate devices. All of the technical characteristics of the modified plate designs for use with the Bioplate Rigid Fixation Bone Plating System for Craniomaxillofacial Surgery are substantially equivalent to the corresponding characteristics of the predicate devices, and any minor differences raise no new issues of safety and efficacy.

Re: K023665  
Trade/Device Name: Modified Plate Design for use with the Bioplate Rigid  
   Fixation Bone Plating System for Craniomaxillofacial Surgery  
Regulation Number: 21 CFR 872.4760  
Regulation Name: Bone Plate  
Regulatory Class: II  
Product Code: JEY  
Dated: October 31, 2002  
Received: October 31, 2002

Dear Ms. Jones:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 21 CFR Part 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4613. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, “Misbranding by reference to premarket notification” (21CFR Part 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html

Sincerely yours,

Timothy A. Ulatowski
