SUMMARY OF SAFETY AND EFFECTIVENESS
(As required by 21 CFR 807.92)

1. General Information

Classification: Class II
Magnetic Resonance Imaging (MRI) Accessory

Common/Usual Name: Magnetic Resonance Imaging (MRI) Coil

Proprietary Name: SENSE Body Coil

Establishment Registration: Philips Medical Systems
MR PMG Cleveland
595 Miner Road
Highland Heights, Ohio 44143
Contact: Duane C. Praschan
Phone Number: (440) 483-3000

FDA Owner Number: #1217116
FDA Registration Number: #1525965

Performance Standards: Not Applicable.

2. Intended Uses

The SENSE Body Coil does not change the intended use of the Philips 1.5T Infinion system.

The 1.5T Infinion system is intended for use as a NMR device that produces images that: (1) correspond to the distribution of protons exhibiting NMR, (2) depend upon NMR parameters (proton density, flow velocity, spin-lattice relaxation time T1, spin-spin relaxation time T2) and (3) display the soft tissue structure of the head and whole body. When interpreted by a trained physician, these images yield information that can be useful in the determination of a diagnosis.

The SENSE Body Coil is indicated for use in the following anatomic regions and with the designated nuclei:

Anatomic Regions: Abdominal, pelvic and thoracic.

Nuclei Excited: Hydrogen.
3. **Device Description**

The SENSE Body Coil is enclosed in a flexible, water-resistant fabric housing and is secured to the patient with Velcro straps. This receive-only coil is designed to give improved signal-to-noise, image resolution and image acquisition time over that of the standard body coil.

4. **Safety and Effectiveness**

The Philips SENSE Body Coil is substantially equivalent to the Philips Phased Array Flexible Cardiac Coil (K984588) in safety and effectiveness. The following chart has been compiled to demonstrate this equivalence.

Mr. Duane C. Praschan
Manager, Regulatory Affairs
Philips Medical Systems (Cleveland) Inc.
595 Miner Road
Cleveland OH 44143

Re: K031095
Trade/Device Name: SENSE Body Coil
Regulation Number: 21 CFR 892.1000
Regulation Name: Magnetic resonance
diagnostic imaging
Regulatory Class: II
Product Code: 90 MOS
Dated: April 4, 2003
Received: April 30, 2003

Dear Mr. Praschan:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (sections 531-542 of the Act); 21 CFR 1000-1050.
This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at one of the following numbers, based on the regulation number at the top of the letter:

- 8xx.1xxx (301) 594-4591
- 876.2xxx, 3xxx, 4xxx, 5xxx (301) 594-4616
- 884.2xxx, 3xxx, 4xxx, 5xxx, 6xxx (301) 594-4616
- 892.2xxx, 3xxx, 4xxx, 5xxx (301) 594-4654
- Other (301) 594-4692

Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97) you may obtain. Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html.

Sincerely yours,

Nancy C. Brogdon
Director, Division of Reproductive,
Abdominal and Radiological Devices
Office of Device Evaluation
Center for Devices and Radiological Health

Enclosure
Device Name: SENSE Body Coil

Indications for Use:

Intended Use

The SENSE Body Coil does not change the intended use of the Philips 1.5T Infinion system.

The 1.5T Infinion system is intended for use as a NMR device that produces images that: (1) correspond to the distribution of protons exhibiting NMR, (2) depend upon NMR parameters (proton density, flow velocity, spin-lattice relaxation time T1, spin-spin relaxation time T2) and (3) display the soft tissue structure of the head and whole body. When interpreted by a trained physician, these images yield information that can be useful in the determination of a diagnosis.

Indications for Use

The SENSE Body Coil is indicated for use in the following anatomic regions and with the designated nuclei:

   Anatomic Regions: Abdominal, pelvic and thoracic regions
   Nuclei Excited: Hydrogen.
