Indianola, PA 15051
(412) 767-2400 ext. 3005

CLASSIFICATION NAME: Angiographic Injector and Syringe [21 CFR 870.1650]

COMMON NAME: Syringe Loader

PROPRIETARY NAME(s): Medrad Manual Syringe Loader

PREDICATE DEVICES: Spectris Solaris MR Injector System (KO12950)
Stellant CT Injector System (K023183)

DEVICE DESCRIPTION: The Medrad Manual Loader is designed as an accessory to Medrad’s CT and MR angiographic injectors and syringes. The system offers a manual alternative to the electronic filling function of the injectors. Due to the different configurations of the syringes for the MR and CT injectors, two options of the Manual Loader will be available, each compatible with either CT syringes or MR Syringes.

INTENDED USE: The Medrad Manual Syringe Loader is designed as an accessory to Medrad’s line of angiographic injectors and syringes. It is intended to facilitate manual syringe contrast filling. It is not intended for patient use or use as a contrast injector.
COMPARISON TO PREDICATE: The Medrad Manual Loader is substantially equivalent to the filling function of the injector head of the Spectris Solaris MR angiographic injector. The Medrad Manual Loader has the same intended use as the syringe filling function of Medrad angiographic injectors.

In the table below, Medrad presents a comparison of the relevant device parameters between the Medrad Manual Loader and the MR/CT Injector Product Line.

Re: K031483
   Medrad Manual Syringe Loader
   Regulation Number: 870.1650
   Regulation Name: Angiographic Injector and Syringe
   Regulatory Class: Class II
   Product Code: DXT
   Dated: May 9, 2003
   Received: July 23, 2003

Dear Mr. Zeltwanger:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050. This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4646. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97) you may obtain. Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html

Sincerely yours,
