DATE PREPARED: March 18, 2005

TRADE OR PROPRIETARY NAME: LC BRACKET ADHESIVE SYSTEM

CLASSIFICATION NAME: Bracket adhesive resin and tooth conditioner (872.3750)

PREDICATE DEVICES: Ideal® 1 Orthodontic Bracket Adhesive (K033703)

DESCRIPTION OF DEVICE: The LC BRACKET ADHESIVE SYSTEM is a two-part light-cure system (adhesive and primer) used in conjunction with a tooth conditioner.

INTENDED USE: The LC BRACKET ADHESIVE SYSTEM is indicated for bonding of orthodontic brackets to natural and artificial tooth surfaces.

TECHNOLOGICAL CHARACTERISTICS: All of the components found in the LC BRACKET ADHESIVE SYSTEM have been used in legally marketed devices.

We believe that the prior use of the components of the LC BRACKET ADHESIVE SYSTEM in legally marketed devices and the similarity of the modified device to the marketed device support the safety and effectiveness of the LC BRACKET ADHESIVE SYSTEM for the intended uses.

Re: K050750
Trade/Device Name: LC Bracket Adhesive System
Regulation Number: 21 CFR 872.3750
Regulation Name: Bracket Adhesive Resin and Tooth Conditioner
Regulatory Class: II
Product Code: DYH
Dated: March 18, 2005
Received: March 23, 2005

Dear Ms. Lewis:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.
