510(k) Summary

General Information

Classification: Class I
Classification Name: Ear, Nose & Throat Manual Surgical Instrument
Regulation Code: 21 CFR 874.4420
Product Code: LRC
Trade Name: Relieva Sinus Balloon Inflation Device
Submitter: Acclarent, Inc.
1525-B O’Brien Drive
Menlo Park, CA 94025

Contact: Su-Mien Chong
VP, Clinical, Regulatory and Quality

Date Revised: 25 August 2005

Intended Use

The Relieva Sinus Balloon Inflation Device is recommended for use to inflate the balloon, monitor the pressure within the balloon and deflate the balloon while performing balloon dilation procedures of the sinus ostia and spaces within the paranasal sinus cavities for diagnostic and therapeutic procedures.

Device Description

The Relieva Sinus Balloon Inflation Device is a disposable inflation device with a manometer that measures pressures ranging from vacuum to gauge capacity.

Materials

All materials used in the manufacture of the Relieva Sinus Balloon Inflation Device are suitable for their intended use and have been used in numerous previously cleared products.
Testing

Products were tested to ensure conformance to product specification. Testing included:

- Pressure Accuracy
- Pressure Decay
- Predicate Comparison
- Pressure Integrity

Summary of Substantial Equivalence

The *Relieva Sinus Balloon Inflation Device* is substantially equivalent to marketed predicate devices with respect to intended use and technological characteristics.

Dear Ms. Chong

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.
This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 827-8910. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,
