Capiox® AF125X Arterial Filter

**Device Name:**
Proprietary Name: Capiox® AF125X Arterial Filter
Common Name: CPB Arterial Line Blood Filter

**Device Classifications:**
Device Classification Name: Cardiopulmonary Bypass Arterial Line Blood Filter
The Terumo AF125 Arterial Filter is classified as a Class II device per 21 CFR § 870.4260

**Device Product Code(s):**
The Capiox® AF125X Arterial Filter is identified by Terumo Cardiovascular Systems as product code CX*AF125X.

The FDA product code for Arterial Line Blood Filters is DTM.

**Review Panel:** Cardiovascular (74)

**Device Intended Use:**
The Capiox® AF125X Arterial Blood Filter is intended to filtrate non-biologic particles and emboli and to facilitate air bubble removal from the blood flowing through a cardiopulmonary bypass circuit for up to 6 hours.

**Reason For Premarket Notification:**
The Capiox® AF125X Arterial Filter is submitted as required by the United States Food and Drug Administration when marketing a new product. The Capiox® AF125X Arterial Filter is a new product – and does not necessarily reflect any modification of any existing, legally marketable products offered by Terumo.

**Statement of Equivalence to Predicate Device:**
The device submitted in this 510(k) is substantially equivalent in intended use, design, technology/principles of operation, materials and specifications to the Capiox® AF200X Arterial Filter that is marketed under Premarket Notification K002026, which was cleared by FDA on September 6, 2000.

A comparison of the similarities and differences is presented in this submission. The differences between the submitted device and the predicate devices do not raise new issues of safety and effectiveness.
Section 514, Special Controls:
To the best of our knowledge, no performance standards have been established for Arterial Line Blood Filters. The following guidance document and FDA Memorandum were referenced, in part or in whole, in the preparation of this submission:

- FDA Blue Book Memorandum G95-1 (Biocompatibility Evaluations)

Re: K052205  
Trade/Device Name: CAPIOX® AF125X Arterial Filter  
Regulation Number: 21 CFR 870.4260  
Regulation Name: Cardiopulmonary Bypass Arterial Line Blood Filter  
Regulatory Class: II  
Product Code: DTM  
Dated: August 1, 2005  
Received: August 12, 2005

Dear Mr. Courtney:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set
forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050. This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0120. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,
