B. 510(k) SUMMARY (as required by 21 CFR 807.92)

Device Name
26 September 2006

COMPANY: Aesculap®, Inc.
3773 Corporate Parkway
Center Valley, PA 18034
Establishment Registration Number: 2916714

CONTACT: Matthew M. Hull
610-984-9072 (phone)
610-791-6882 (fax)

TRADE NAME: SternumFix Sternal Closure System

COMMON NAME: Metallic Cerclage Fixation System

CLASSIFICATION NAME: Bone fixation cerclage

REGULATION NUMBER: 888.3010

PRODUCT CODE: JDQ

SUBSTANTIAL EQUIVALENCE
Aesculap®, Inc. believes that the SternumFix Sternal Closure System is substantially equivalent to:

1) Ethicon Stainless Steel Suture Wire (K931271/ K946173)
2) Aesculap CranioFix Titanium Clamp System (K040864)
3) Synthes Sternal Fixation System (K010943)

DEVICE DESCRIPTION
The Aesculap SternumFix Sternal Closure System consists of an implantable single use clamp made of titanium alloy (TiAl6V4) and a specially designed applicator instrument.

INDICATIONS FOR USE
The Aesculap SternumFix Sternal Closure System is intended for use in primary or secondary closure/repair of the sternum following sternotomy or fracture of the sternum to stabilize the sternum and promote fusion.
TECHNOLIGICAL CHARACTERISTICS (compared to Predicate(s))

The design of the clamp and the applier are based upon the proven design features of the Aesculap CranioFix clamp and applier. The implant material (TiAl4V6) is the same as that used in the CranioFix implant. The packaging and sterilization are the same as that used for CranioFix as well. The efficacy of the SternumFix was compared to that of the current standard of care: wire cerclage fixation (Ethicon SS Suture). The indicated use for this device is similar to that of the Synthes Sternal Fixation System.

PERFORMANCE DATA

Mechanical testing of the SternumFix and the predicate Ethicon Stainless Steel proved the efficacy of the new device.

Re: K063017
Trade/Device Name: SternumFix Sternal Closure System
Regulation Number: 21 CFR 888.3010
Regulation Name: Bone fixation cerclage
Regulatory Class: Class II
Product Code: JDQ
Dated: September 29, 2006
Received: October 2, 2006

Dear Mr. Hull:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set
forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050. This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0120. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Mark N. Melkerson, M.S.
