Establishment Registration Number:
9611612

Device Information:
Device Name: Disposable Trocar System
Trade Names: TrocaSys
Common Name: Laparoscope, General and Plastic surgery
Classification Name: Endoscope and accessories
Classification Reference: 21 CFR §876.1500, April 1, 2005
Establishment Registration Number: 9611612

Classification: Regulatory Class: II
Product Code: GCJ
Panel: General & Plastic Surgery
Predicate Devices: K012771: Pajunks reusable Trocars, trocar sleeves, dilation balloons and trocar Systems
Device Description:

The Pajunk TrocaSys consists of disposable trocar sleeves, disposable trocars and obturators and disposable valves (i.e. TrocaTec, TrocaPort, Hasson system for example for insufflation). The system is based on Pajunks reusable Trokars, Trokar sleeves and Accessories already cleared in K012771. The technical description remains unchanged.

The systems and its accessories are manually operated surgical devices used by physicians for making incisions into the patient's body to allow insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures.

The devices follow the FDA Draft Guidance for the Content of Premarket Notifications for Endoscopes used in Gastroenterology and Urology, dated 3/17/95.

The trocars and obturators are used together with the trocar sleeves for puncture of the patient's body. After having made the incision, the trocar is removed to allow insertion of endoscopes and endoscopic accessories.

The Disposable Hasson Cone, Disposable obturators/ trocars, Disposable Trocar valve, Disposable TrocaTec and Disposable TrocaPort are available separately.

For a detailed device description please refer to section 11.0 of this submission.

Disposable TrocaPort

The Pajunk TrocaSys is a manually operated surgical device intended for making incisions into the patient’s body to allow the insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures. The TrocaPort is a component of the system available separately.

Disposable TrocaTec

The Pajunk TrocaSys is a manually operated surgical device intended for making incisions into the patient’s body to allow the insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures. The TrocaTec is a component of the system available separately.

Disposable Trocar valve

The Pajunk TrocaSys is a manually operated surgical device intended for making incisions into the patient’s body to allow the insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures. The disposable Trocar valve is a component of the system available separately. It may be used with Pajunk’s dilation balloon systems also.

Disposable obturators/ trocars

The Pajunk TrocaSys is a manually operated surgical device intended for making incisions into the patient’s body to allow the insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures. The obturators and trocars are components of the system available separately. They may be used with Pajunk’s dilation balloon systems also.

Disposable Hasson Cone

The Pajunk TrocaSys is a manually operated surgical device intended for making incisions into the patient’s body to allow the insertion of endoscopes and endoscopic accessories during general endoscopic and laparoscopic procedures. The Hasson Cone is a component of the system available separately.

Trade/Device Name: TrocaSys disposable Trocar System  
Regulation Number: 21 CFR 876.1500  
Regulation Name: Endoscope and accessories  
Regulatory Class: II  
Product Code: GCJ  
Dated: January 4, 2007  
Received: January 8, 2006

Dear Christian Quass:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.
This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Mark N. Melkerson
