510(k) Summary
For
Analogic Corporation
AN6255 and AN6265 Digital Radiology Systems

K071430

This 510(k) summary is being submitted in accordance with the requirements of 21 CFR 807.92

Submitter's Name and Address:

Analogic Corporation
8 Centennial Drive
Peabody, MA 01960

Date this Summary was Prepared:

Error! Reference source not found.

Contact Person:

Donald J Sherratt, Director of Corporate Regulatory Affairs
Tel: (978) 326-4000 extension 4075
Fax: (978) 977-6808

Device Name:

Proprietary or Trade Name:	AN6255 and AN6265 (SyneRad Omni)
Common Name:	Digital Radiology Systems
Classification Name:	Digital Radiology Systems and Accessories
Device Classification:	Class II

Predicate Device:

The legally marketed devices to which equivalence is being claimed are:

The Analogic AN6250 Digital Radiology System. The predicate system was cleared under Premarket Notification K043025.

Re: K071430
Trade/Device Name: AN6255 and AN6265 Digital Radiology Systems
Regulation Number: 21 CFR 892.1680
Regulation Name: Stationary x-ray system
Regulatory Class: II
Product Code: KPR
Dated: May 21, 2007
Received: May 23, 2007

Dear Mr. Sherratt:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at one of the following numbers, based on the regulation number at the top of this letter:

21 CFR 876.xxx	(Gastroenterology/Renal/Urology	240-276-0115
21 CFR 884.xxx	(Obstetrics/Gynecology)	240-276-0115
21 CFR 894.xxx	(Radiology)	240-276-0120
Other		240-276-0100

Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150
or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Nancy C Brogdon

Enclosure

ANALOGIC

510(k) Number K071430:

Device Name: AN6255 and AN6265 Digital Radiology Systems

Indications For Use:

The AN6255 and AN6265 are digital X-ray general radiography systems intended for use by qualified/trained doctor or technician and are designed to perform radiographic exposures of the whole body including skull, spinal column, chest, abdomen, extremities and other body parts excluding mammography. Radiographic exposures may be taken with the patient in the sitting, standing, or lying in the prone or supine position.

Images from these systems are available for preview by the doctor/X-ray technician on the operator's workstation within seconds of the x-ray exposure. Digital (DICOM) images can be stored on electronic media, or exported to a (DICOM/PACS) network, clinical review station or to a film printer.
