510(k) SUMMARY

K071740

BLUE COLOUR, CHLORINATED POWDER FREE NITRILE EXAMINATION GLOVES

OCT 4 2007

Submitter's Name	MEDTEXX MANUFACTURING SDN. BHD.
Submitter's Address	PT 4004, Kamunting Industrial Estate 34600 Taiping, Perak, Malaysia
Submitter's Phone Number	605-891 1111 / 605-891 5555
Submitter's Fax Number	605-891 1088
Name of Contact Person	Ooi Loon Seng
Date of Preparation	
Name of Device Trade Name : Common Name : Classification Name :	 BLUE COLOUR, CHLORINATED POWDER FREE NITRILE EXAMINATION GLOVES Nitrile Examination Gloves Patient Examination Gloves
Legally Marketed Device to which Equivalency is Being Claimed	Blue Colour, Chlorinated Powder Free Nitrile Examination Gloves as described in this 510 K Notification is substantially equivalent to the current Class 1 Patient Examination glove bearing the product code 80LZA (21 CFR 880.6250). It meets all the current specifications listed under the ASTM Specification D 6319 – 00a Standard Specification for Nitrile Examination Gloves for Medical Application.
Description of the Device	The Blue Colour, Chlorinated Powder Free Nitrile Examination Gloves is substantially equivalent to the Class 1 patient examination glove bearing the product code 80LZA (21 CFR 880.6250). It

	meets all the current specifications listed under the ASTM Specification D 6319 – 00a Standard Specification for Nitrile Examination Gloves for Medical Application[1]. They are made from nitrile compound(dispersion of butadiene acrylonitrile copolymer. They are blue in color and are powder free.
Intended Use of the Device	The Blue Colour, Chlorinated Powder Free Nitrile Examination Gloves are intended for single use for medical purposes that is worn on the hand of health care and similar personnel to prevent contamination between the health care personnel and the patients.
Summary of Technological Characteristic Compared to the Predicate Device	There is no different technological characteristic. Gloves are made from nitrile compound (dispersion of butadiene acrylonitrile copolymer) and the initial products are powder free nitrile examination gloves.
Brief Description of Non-Clinical Tests	Testing performed per ASTM D 6319 – 00a Standard Specification for Nitrile Examination Gloves for Medical Application and 21 CFR 800.20. Gloves meet all the current ASTM D 6319-00a. Primary skin irritation testing in the rabbit and delayed dermal contact sensitization study in the guinea pigs indicate no irritation or sensitization.
Brief description of Clinical Tests	No new clinical tests were conducted under this 510(k).
Conclusions Drawn from the Non-Clinical and Clinical Tests	Non-Clinical laboratory and animal based test data indicate that the powder free product meets all performance and biocompatibility requirements.
Other Information Deemed Necessary by FDA	Not Applicable

Re: K071740
Trade/Device Name: Blue Colour, Chlorinated Powder Free Nitrile Examination Gloves
Regulation Number: 21 CFR 880.6250
Regulation Name: Patient Examination Glove
Regulatory Class: I
Product Code: LZA
Dated: September 19, 2007
Received: September 24, 2007

Dear Mdm. Seng:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (301) 594-4618. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address http://www.fda.gov/cdrh/dsma/dsmamain.html
