510(K) SUMMARY OF SAFETY AND EFFECTIVENESS
Mimics (Materialise's Interactive Medical Image Control System)

PROPRIETARY NAME:
Mimics

COMMON NAME:
Image processing system and preoperative software for simulating/evaluating surgical treatment options

CLASSIFICATION NAME:
System, Image Processing. This product uses images acquired from Computerized Tomography (CT) or Magnetic Resonance Imaging (MRI) scanners.

DEVICE CLASSIFICATION:
This device has been classified as Class II.

REGULATORY CLASS:
Class II

PRODUCT CODE:
LLZ

SUBMITTER'S NAME AND ADDRESS:
MATERIALISE N.V.
Technologielaan 15
B-3001 LEUVEN, BELGIUM

ESTABLISHMENT REGISTRATION NO:
3003998208

CONTACT PERSON:
Mieke Janssen, Materialise N.V.
Quality Engineer

SUMMARY PREPARATION DATE:
April 1, 2008

PREDICATE DEVICE

The Mimics software is claimed to be substantially equivalent in material, design, and function to the SimPlant product from Materialise Dental which was cleared by FDA under 510(k) K033849 on May 25, 2004.

DEVICE DESCRIPTION

The Materialise Mimics software is intended for use as a software interface and image segmentation system for the transfer of imaging information from a medical scanner such as a CT scanner or a Magnetic Resonance Imaging scanner to an output file. It is also intended as pre-operative software for simulating/evaluating
surgical treatment options. Mimics is not intended to be used for mammography imaging.

STERILIZATION

The Mimics product is provided non-sterile.

INDICATIONS FOR USE

The Materialise Mimics software is intended for use as a software interface and image segmentation system for the transfer of imaging information from a medical scanner such as a CT scanner or a Magnetic Resonance Imaging scanner to an output file. It is also intended as pre-operative software for simulating / evaluating surgical treatment options. Mimics is not intended to be used for mammography imaging.

SUBSTANTIAL EQUIVALENCE

Mimics is considered to be substantially equivalent to the SimPlant System.

CONCLUSION

Mimics is considered to be substantially equivalent in design, material and function to the SimPlant system.

Re: K073468  
Trade/Device Name: Mimic Software  
Regulation Number: 21 CFR 892.2050  
Regulation Name: Picture archiving and communications system  
Regulatory Class: II  
Product Code: LLZ  
Dated: March 20, 2008  
Received: March 24, 2008

Dear Mr. Janssen:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.
Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance at one of the following numbers, based on the regulation number at the top of this letter.
