5 510(K) SUMMARY

Date: October 30, 2008
510(k) owner's name: Optomed Oy
Address: Hallituskatu 13-17 D 96, 90100 Oulu, Finland
Name of contact person: Mr. Jeffrey Rongero, UL RTP OFFICE COORDINATOR
Phone: 919 549 1922

Device name: Trade name: Optomed Smartscope M3-1 EY1
Common/usual name: Digital Ophthalmoscope
Classification name: camera, ophthalmic, ac-powered (21 CFR 886.1120, Product code: HKI)

Predicate devices:
1. WELCH ALLYN 11810 OPHTHALMOSCOPE (510(k) number: K003376, Product code: HLI)
2. KOWA GENESIS-D hand-held retinal camera (510(k) number: K080681, Product code: HKI)

Device description, Intended use & Effectiveness:

Optomed Smartscope M3-1 EY1 is a hand-held digital ophthalmoscope used to capture digital images and video of the cornea, aqueous, lens, vitreous and retina of the human eye. M3-1 EY1 has a LED light source. Image data is stored on the Flash memory card using 6.6 megapixel CMOS sensor and transferred to the PC by using USB connection. Device has rechargeable batteries.

Optomed Smartscope M3-1 EY1 and Kowa Genesis-D have similar indications for use, similar method of operation, and similar technological features such as; image capture method, data storage using SD card, LED for illumination, graphical user interface, USB cable, and display. Optomed Smartscope M3-1 EY1 and Welch Allyn Series 118 Ophthalmoscope have a similar kind of intended use, similar kind of modular configuration, similar radiation safety measures and similar performance in fundus examination. Table below gives a summary about comparison of the Optomed Smartscope M3-1 EY1 and the predicate devices.

General Equivalency comparison between Optomed Smartscope M3-1 EY1 and its predicates has been assessed by studying non-clinical performance data. Optical Equivalency and Radiation Safety measurements have been conducted as described in the FDA's Ophthalmoscope Guidance (Version 1.0, issued on July 8, 1998) and Optomed Smartscope M3-1 EY1 has been found to be as safe as Welch Allyn Series 118 ophthalmoscope. In addition, a field of view comparison has been made and conclusion is, that field of view of the Optomed Smartscope M3-1 EY1 is similar or bigger than field of view of the Welch Allyn PanOptic Series 118 ophthalmoscope.

Re: K092056
Trade/Device Name: Optomed Smartscope M3-1 EY1
Regulation Number: 21 CFR 886.1120
Regulation Name: Ophthalmic Camera
Regulatory Class: II
Product Code: HKI
Dated: September 16, 2009
Received: September 18, 2009

Dear Mr. Rongero:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA’s issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act’s requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.
If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please go to http://www.fda.gov/AboutFDA/CentersOffices/CDRH/CDRHOffices/ucm115809.htm for the Center for Devices and Radiological Health’s (CDRH’s) Office of Compliance. Also, please note the regulation entitled, “Misbranding by reference to premarket notification” (21 CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to http://www.fda.gov/cdrh/mdr/ for the CDRH’s Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or at its Internet address http://www.fda.gov/cdrh/industry/support/index.html.

Sincerely yours,

Malvina B. Eydelman, M.D.
