Purepac Pharmaceutical Co. Attention: Joan Janulis 200 Elmora Avenue Elizabeth, NJ 07207

Dear Madam:

This is in reference to your abbreviated new drug application dated February 1, 1999, submitted pursuant to Section 505(j) of the Federal Food, Drug, and Cosmetic Act (Act), for Doxazosin Mesylate Tablets, 1 mg (base), 2 mg (base), 4 mg (base) and 8 mg (base).

Reference is also made to your amendments dated March 15, August 20, September 24, and September 30, 1999.

We have completed the review of this abbreviated application and have concluded that, based upon the information you have presented to date, the drug is safe and effective for use as recommended in the submitted labeling. Therefore, the application is tentatively approved. This determination is based upon information available to the Agency at this time, (i.e., data in your application and the status of current good manufacturing practices (CGMPs) of the facilities used in the manufacture and testing of the drug product), and is subject to change on the basis of new information that may come to our attention. The listed reference drug product (RLD) upon which you have based your application, Cardura Tablets of Pfizer Laboratories, is subject to a period of patent protection. Therefore, final approval of your application may not be made effective pursuant to 21 U.S.C. 355(j)(5)(B)(ii) of the Act until the period has expired, i.e., October 18, 2000.

To provide for final approval, please submit an amendment to this application at least 60 (but not more than 90) days prior to October 18, 2000. This amendment should identify changes, if any, in the conditions under which the product was tentatively approved, and should include updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. An amendment should be

submitted even if none of these changes were made. This submission should be clearly designated in your cover letter as a MINOR AMENDMENT. In addition to or instead of this amendment, the Agency may request that you submit an amendment containing the information described above at any time prior to the final date of approval.

Failure to submit such an amendment requested by the Agency will prompt a review of the application which may result in rescission of this tentative approval letter.

Any significant changes in the conditions outlined in this abbreviated application require Agency approval before the changes may be made effective.

Prior to issuance of a final approval letter by the Agency, your product will <u>not</u> be deemed approved for marketing under 21 U.S.C. 355 and will not be listed in the "Approved Drug Products with Therapeutic Equivalence Evaluations" list (the "Orange Book"), published by the Agency. Should you believe that there are grounds for issuing the final approval letter prior to October 18, 2000, you should amend your application accordingly.

At the time you submit any amendments, you should contact Joseph Buccine, Project Manager, at (301) 827-5848, for further instructions.

The introduction or delivery for introduction into interstate commerce of the drug before the effective approval date is prohibited under 21 U.S.C. 331(d).

Sincerely yours,

Douglas L. Sporn Director Office of Generic Drugs Center for Drug Evaluation and

Research
